Cardiovascular Disease in Small Animal Medicine

Description: The softcover edition of this comprehensive and superbly illustrated book contains key updates to the text and references focused on common cardiovascular diseases and their management, including therapy for congestive heart failure and arrhythmias, reflecting the main developments in cardiology and in practice.

Since publication Dr Ware's authoritative yet user friendly guide to cardiovascular diseases and disorders in the dog and cat has been widely praised. It is richly illustrated throughout by clinical colour photos, imaging and diagrams of the highest quality. Coverage includes evaluation techniques, investigative procedures, diagnosis, medical and surgical management options and methods.

Key features:

- Key topic in small animal medicine
- Covers cardiac evaluation techniques, investigation, diagnosis and treatment
- Contains superb colour illustrations throughout including high quality radiographs, colour photographs and colour line drawings

Reviews

"Excellently achieves the author's stated goal of creating a practical clinical reference that will also provide a broad overview of small animal cardiovascular medicine... strikes a great balance between comprehensiveness and usefulness in everyday practice... great value for practicing veterinarians and veterinary students."
J.A.V.M.A.

"Whether you are a clinical student, the most generalist of general practitioners or a bit of a cardiologist, this has something to offer all"
The Veterinary Record

"A tremendous reference for students and small animal practitioners alike... clearly organized and presented in a practical fashion... useful in an emergency situation as well as day-to-day practice"
ALN Magazine

Contents:

Preface
Abbreviations

Section 1: Introduction and normal reference information

1. The normal cardiovascular system
   The heart
   The circulation
   References

2. The cardiovascular examination
   General considerations
   The cardiovascular examination
   References

3. Overview of cardiac radiography
   General principles
   Evaluation of the heart
   Evaluation of intrathoracic blood vessels
   Evaluation of pulmonary parenchyma
   Evaluation of the pleural space
   References
4. Overview of electrocardiography
   General principles
   Cardiac rhythm assessment
   Mean electrical axis
   Cardiac chamber enlargement
   Other ECG abnormalities and considerations
   Ambulatory ECG
   References

5. Overview of echocardiography
   General principles
   The echocardiographic examination
   Two-dimensional echocardiography
   M-mode echocardiography
   Doppler echocardiography
   Transesophageal echocardiography
   Three-dimensional echocardiography
   References

Section 2: Clinical manifestations and management of cardiovascular problems

6. Murmurs and abnormal heart sounds
   Overview
   Cardiac murmurs
   Abnormal transient sounds
   Approach to the patient with a murmur or abnormal heart sounds
   References

7. Cardiomegaly
   Overview
   Pathophysiology
   Approach to the patient with cardiomegaly
   References

8. Cough
   Overview
   Pathophysiology
   Approach to the coughing patient
   References

9. Respiratory difficulty
   Overview
   Pathophysiology
   Approach to the patient with respiratory difficulty
   References

10. Jugular vein distension or pulsations
    Overview
    Pathophysiology
    Approach to the patient with jugular vein distension/pulsations
    References

11. Abdominal distension
    Overview
    Pathophysiology
    Approach to the patient with abdominal distension
    References

12. Subcutaneous edema
    Overview
    Pathophysiology
    Approach to the patient with subcutaneous edema
References

13. Abnormal heart rate or rhythm
   Overview
   Pathophysiology
   Approach to the patient with abnormal heart rate or rhythm
   References

14. Syncope or intermittent collapse
   Overview
   Pathophysiology
   Approach to the patient with syncope or intermittent collapse
   References

15. Thromboembolic disease
   Overview
   Pathophysiology
   Approach to the patient with thromboembolic disease
   Thromboembolic disease prophylaxis
   References

16. Management of heart failure
   Overview
   Pathophysiology
   Clinical manifestations of congestive heart failure
   Management of acute decompensated congestive heart failure
   Management of chronic heart failure
   References

17. Management of arrhythmias
   Overview
   Pathophysiology
   General arrhythmia management considerations
   Management of supraventricular tachyarrhythmias
   Management of ventricular tachyarrhythmias
   Management of bradyarrhythmias
   Overview of antiarrhythmic drugs
   Overview of pacing therapy
   References

Section 3: Cardiovascular diseases

18 Congenital cardiovascular diseases
   Overview
   Subaortic stenosis
   Pulmonic stenosis
   Patent ductus arteriosus
   Ventricular septal defect
   Atrial septal defect
   Mitral dysplasia
   Tricuspid dysplasia
   Tetralogy of Fallot
   Pulmonary hypertension with shunt reversal
   Vascular ring anomalies
   Cor triatriatum
   Other vascular anomalies
   Endocardial fibroelastosis
   References

19. Acquired valve diseases
    Degenerative valve disease
    Infective endocarditis
    References
20. Myocardial diseases of the dog
  Dilated cardiomyopathy
  Arrhythmogenic right ventricular cardiomyopathy
  Secondary myocardial diseases
  Hypertrophic cardiomyopathy
  Infective myocarditis
  Noninfective myocarditis
  References

21. Myocardial diseases of the cat
  Hypertrophic cardiomyopathy
  Secondary hypertrophic myocardial disease
  Restrictive cardiomyopathy
  Dilated cardiomyopathy
  Arrhythmogenic right ventricular cardiomyopathy
  Corticosteroid-associated congestive heart failure
  Myocarditis
  References

22. Pericardial diseases and cardiac tumors
  Acquired pericardial effusions
  Constrictive pericardial disease
  Congenital pericardial malformations
  Cardiac tumors
  References

23. Pulmonary hypertension
  Overview
  Pathophysiology
  Clinical features
  References

24. Heartworm disease
  Dirofilaria immitis
  Angiostrongylus vasorum
  References

25. Systemic hypertension
  Overview
  Clinical features
  References
