Analyzing Hybrid Solar Cells 2016

Description:
The Sun, believed by the mankind to be just a mere centerpiece of the solar system in which we live is in reality not just a unit but an entire symphonic system which was in place much before the first humans ever walked on planet earth. This system which has been the primary energy source for origin of life on earth is in fact very well adequately positioned by nature to fulfill the needs of energy for humans for many more centuries to come.

An effort by humans to harness this abundant source of energy available around us has manifested in the form solar energy being converted to many applications as diverse as heat channelizing, electricity conversion, electro mechanical applications and many more as these. The dream of solar energy for human applications was realized in the early part of this century by the invention of solar cells which when arranged in photovoltaic arrays deliver power for bigger applications.

The next leap of invention in this direction is "Hybrid Solar Cells". This research report Analyzing Hybrid Solar Cells earmarks the immense potential that this technology holds for the future of mankind and the crucial impact it will have on the process of introduction of solar energy into large scale arenas of the industrialized economies.

This research report on Hybrid Solar Cells initiates with a strong theoretical understanding of the Solar Cell system and their subsequent propagation into photovoltaic systems including their applications derived from generational leaps as first to third generation cells. The report presents the entire gamut of PV cells in a structured family tree for easy interpretation and also delves into the applications of PV Technology in isolated environment.

The report also devotes an entire in depth section to the technical aspects of Hybrid Solar Cells systems including their history as well as mechanism, general operation principles and the new innovations in architecture design of Hybrid Solar Cells which have opened up new markets for solar power systems. These are further explained in the efficient design choices of various configurations and new ideas contributed in this field.

Analyzing Hybrid Solar Cells is a very comprehensive tool for understanding this technology in a in depth manner and deliver thought provoking views on the marvels of this field which is nature's helping hand lent to mankind in order to preserve a way of life which is sustainable as well as in sync with our environment.

Contents:
A. Executive Summary
B. Introduction to Photovoltaics
B.1 Overview
B.2 Historical Background of Solar Cells
B.3 Looking at Solar Electricity
B.4 Photovoltaic Systems
B.5 Analyzing the 3 Generations of Photovoltaic Cells
B.5.1 First Generation PV Cells
B.5.2 Second Generation PV Cells
B.5.3 Third Generation PV Cells
B.6 Applications of Solar Cells
B.7 Types of Solar Cells
B.8 PV Technology in Isolated Generation
B.9 Looking at Thin Film Solar Cells
C. Global Market Overview of Solar PV Cells
C.1 Market Profile
C.2 Market Size
C.3 Growth Patterns of the Market
C.4 Market Statistics - Production Side
C.5 Commercialization Potential & Market Development
C.6 Industry Forecast

D. Analysis of Hybrid Solar Cells
D.1 What are Hybrid Solar Cells?
D.2 How Hybrid Solar Cells Function
D.3 Efficiency Issues
D.3.1 Problem of Bandgap
D.3.2 Problem of Interfaces
D.3.3 Problem of Charge Transport
D.3.4 Improvements in the Efficiency of Hybrid Solar Cells

E. Types of Hybrid Solar Cells
E.1 Carbon Nanotubes (CNTs)
E.2 Dye-sensitized Solar Cells
E.3 Nanostructured Inorganic-Small Molecules
E.4 Polymer-Nanoparticle Composite

F. Hybrid Solar Cells and the Bulk Heterojunction Concept

G. Trends in the Hybrid Solar Cells' Market: Current & Future

H. Appendix
H.1 PEST Framework Analysis: Global Solar Photovoltaic Industry
H.1.1 Political Aspects
H.1.2 Economic Aspects
H.1.3 Social Aspects
H.1.4 Technological Aspects

I. Glossary of Terms

Ordering:

Order Online - http://www.researchandmarkets.com/reports/1267744/

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit
http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct and select the format(s) you require.

Product Name: Analyzing Hybrid Solar Cells 2016
Web Address: http://www.researchandmarkets.com/reports/1267744/
Office Code: SC

Product Formats
Please select the product formats and quantity you require:

<table>
<thead>
<tr>
<th>Product Format</th>
<th>Quantity</th>

* Shipping/Handling is only charged once per order.
* The price quoted above is only valid for 30 days. Please submit your order within that time frame to avail of this price as all prices are subject to change.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title: [Mr] [Mrs] [Dr] [Miss] [Ms] [Prof]
First Name: __________________________ Last Name: __________________________
Email Address: * __________________________
Job Title: __________________________
Organisation: __________________________
Address: __________________________
City: __________________________
Postal / Zip Code: __________________________
Country: __________________________
Phone Number: __________________________
Fax Number: __________________________

* Please refrain from using free email accounts when ordering (e.g. Yahoo, Hotmail, AOL)
Payment Information
Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer:
Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB8533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
