**International Journal of Protective Structures**

**Description:** Because of increased terrorist activities, the effective protection of critical civil infrastructure such as embassies, government buildings, airports and bridges against blast loads has become a critical issue. Moreover, the effects of military ordnance on civil infrastructure, and collateral damage estimation, are increasingly topics of relevance to defence agencies and government. Hence, there has been a significant increase in research activities related to infrastructure protection against blast loads around the world. Many new research results have been obtained. In addition to blast loads from terrorist actions or accidental gas explosions, vehicle impact on road and bridge infrastructure, ship impact on bridge structures, and impact between adjacent structures during earthquake shakings, drop weight effects, etc have also been reported to cause structural damage and failure. Many research activities are devoted to the modeling and analysis of shock and impact effects on structures. Penetration and perforation analysis, material failure in high strain rate loading, test method developments in shock and impact conditions have also attracted increasing research interests in recent years.

The International Journal of Protective Structures will publish high quality research papers related to civil infrastructure protection against natural or man-made shock and impact loads, including but not limited to blast loads from terrorist actions or accidental gas explosions, vehicle impact on road and bridge infrastructure, ship impact on bridge structures, impact between adjacent structures during earthquake shakings, and drop weight effects. It welcomes original papers related to the themes of the journal. Civil infrastructure may include, but is not limited to, buildings, bridges, pipelines, offshore platforms, shipping, defence facilities and other onshore, offshore, above-ground or underground structures. The journal will be an effective medium for the timely dissemination of research findings that will not only benefit the professional communities, but also society as a whole for effective infrastructure protection. It will serve as a bridge to link active researchers, academics, engineers and policy makers around the world.

**Ordering:**
- Order Online - [http://www.researchandmarkets.com/reports/1555828/](http://www.researchandmarkets.com/reports/1555828/)
- Order by Fax - using the form below
- Order by Post - print the order form below and send to

  Research and Markets,  
  Guinness Centre,  
  Taylors Lane,  
  Dublin 8,  
  Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct and select the format(s) you require.

Product Name: International Journal of Protective Structures
Web Address: http://www.researchandmarkets.com/reports/1555828/
Office Code: SC6I8IXU

Product Formats
Please select the product formats and quantity you require:

<table>
<thead>
<tr>
<th>Product Format</th>

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
