Skin Rash - Pipeline Review, Q1 2011

Description: Skin Rash - Pipeline Review, Q1 2011

Summary

Global Markets Direct's, 'Skin Rash - Pipeline Review, Q1 2011', provides an overview of the Skin Rash therapeutic pipeline. This report provides information on the therapeutic development for Skin Rash, complete with latest updates, and special features on late-stage and discontinued projects. It also reviews key players involved in the therapeutic development for Skin Rash. 'Skin Rash - Pipeline Review, Q1 2011' is built using data and information sourced from Global Markets Direct's proprietary databases, Company/University websites, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources, put together by Global Markets Direct's team.

Note:- Certain sections in the report may be removed or altered based on the availability and relevance of data for the indicated disease.

Scope

- A snapshot of the global therapeutic scenario for Skin Rash.
- A review of the Skin Rash products under development by companies and universities/research institutes based on information derived from company and industry-specific sources.
- Coverage of products based on various stages of development ranging from discovery till registration stages.
- A feature on pipeline projects on the basis of monotherapy and combined therapeutics.
- Coverage of the Skin Rash pipeline on the basis of therapeutic class, route of administration and molecule type.
- Profiles of late-stage pipeline products featuring sections on product description, mechanism of action and research & development progress.
- Key discontinued pipeline projects.
- Latest news and deals relating to the products.

Reasons to buy

- Identify and understand important and diverse types of therapeutics under development for Skin Rash.
- Identify emerging players with potentially strong product portfolio and design effective counter-strategies to gain competitive advantage.
- Plan mergers and acquisitions effectively by identifying players with the most promising pipeline.
- Devise corrective measures for pipeline projects by understanding Skin Rash pipeline depth and focus of Skin Rash therapeutics.
- Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.
- Modify the therapeutic portfolio by identifying discontinued projects and understanding the factors that drove them from pipeline.
