Trend Screener: Stock Market Report

Description:
Trend Screener is a weekly guide that covers the U.S. stock market. The report is broken down into 10 sections: Market Update, Industry Group Watch, Fed Watch, Housing, Financials, Technology, USD & Commodities, Emerging Markets, Leading stocks, & the publisher's current watch list! Each section helps clients focus on what important events are occurring at any given time. The publisher's weekly analysis does not aim to predict market action; instead it interprets what is actually happening. Trend Screener looks to identify, as early as possible, where capital will flow at any given moment and capture intermediate term trends as they develop in real-time.

How it helps:
The publisher's research is designed to filter out the noise and focus on what matters most: market action. Ideas are derived from Sarhan's database of advanced fact-based strategies, which combine stringent fundamental and technical criteria to select strong buy and sell candidates. Once identified, clients use this data to focus their attention on the market's strongest leaders.

Trend Screener is offered in monthly, quarterly, or annual subscriptions.
