Reproductive and Developmental Toxicology

Description: Reproductive toxicology is a complex subject dealing with three components-parent, placenta, and fetus-and the continuous changes that occur in each. Reproductive and Developmental Toxicology is a comprehensive and authoritative resource providing the latest literature enriched with relevant references describing every aspect of this area of science. It addresses a broad range of topics including nanoparticles and radiation, gases and solvents, smoking, alcohol and drugs of abuse, food additives, nutraceuticals and pharmaceuticals, and metals, among others. With a special focus on placental toxicity, this book is the only available reference to connect the three key risk stages, and is the only resource to include reproductive and developmental toxicity in domestic animals, fish, and wildlife.

- Provides a complete, integrated source of information on the key risk stages during reproduction and development
- Includes coverage of emerging science such as stem cell application, toxicoproteomics, metabolomics, phthalates, infertility, teratogenicity, endocrine disruption, surveillance and regulatory considerations, and risk assessment
- Offers diverse and unique in vitro and in vivo toxicity models for reproductive and developmental toxicity testing in a user-friendly format that assists in comparative analysis

Contents:

Foreword
Section-I: General
Section-II: Safety Evaluation and Toxicity Testing Models
Section-III: Nanoparticles and Radiation
Section-IV: Gases and Solvents
Section-V: Smoking, Alcohol, and Drugs of Abuse and Addiction
Section-VI: Food Additives, Nutraceuticals, and Pharmaceuticals
Section-VII: Metals
Section-VIII: Pesticides and Other Environmental Contaminants
Section-IX: Phytotoxicants
Section-X: Biotoxins
Section-XI: Special Topics
Section-XII: Endocrine Disruption, Mutagenicity, Carcinogenicity, Infertility and Teratogenicity
Section-XIII: Toxicologic Pathology
Section-XIV: Placental Toxicity
Section-XV: Domestic, Wildlife and Aquatic Species
