Transduction Mechanisms in Cellular Signaling

Description: Cytosol, the liquid found inside cells, is the site for multiple cell processes, including signaling from the cell membrane to sites within the cell. Cytosolic signaling mechanisms are researched and studied in graduate programs in cell biology, molecular biology, biochemistry, pharmacology, molecular and cellular physiology, pharmacy, and biomedical sciences.

- Articles written and edited by experts in the field
- Thematic volume covering material needed for young professionals joining the field of research and graduate students taking survey courses
- Up-to-date research on signaling systems and mutations in transcription factors that provide new targets for treating disease

Contents: Volume two includes 183 chapters divided in 8 sections, including:

Section A: Protein Phosphorylation

56 Eukaryotic Kinomes: Genomics and Evolution of Protein Kinases

57 Modular Protein Interaction Domains in Cellular Communication

58 Structures of Serine/Threonine and Tyrosine Kinases

59 Protein Tyrosine Kinase Receptor Signaling Overview

60 Signaling by the Platelet-Derived Growth Factor Receptor Family

61 The Epidermal Growth Factor Receptor Family

62 Mechanisms and Functions of Eph Receptor Signaling

63 Cytokine Receptor Signaling

64 The Negative Regulation of JAK/STAT signaling

65 Protein Kinase Inhibitors

66 Integrin Signaling: Cell Migration, Proliferation, and Survival

67 Downstream Signaling Pathways: Modular Interactions

68 Non-Receptor Tyrosine Kinases in T Cell Antigen Receptor Function

69 Receptor Tyrosine Kinase Signaling and Ubiquitination

70 TGFβ Signal Transduction

71 Mitogen-Activated Protein Kinases

72 Recognition of Phospho-Serine/Threonine Phosphorylated Proteins

73 AMP-Activated Protein Kinase

74 Principles of Kinase Regulation

75 Calcium/Calmodulin-Dependent Protein Kinase II
76 Glycogen Synthase Kinase 3
77 The PIKK Family of Protein Kinases
78 Histidine Kinases in Two-Component Signaling Pathways
79 The EF2K/MHCK/TRPM7 Family of Atypical Protein Kinases
80 The Leucine-Rich Repeat Receptor Protein Kinases of Arabidopsis thaliana
81 Engineering Protein Kinases with Specificity for Unnatural Nucleotides and Inhibitors
82 Clinical Applications of Kinase Inhibitors in Solid Tumors
83 Ubiquitin-Mediated Regulation of Protein Kinases in NFκB Signaling
84 Global Analysis of Phosphoregulatory Networks

Section B: Protein Dephosphorylation

85 Phosphatase Families Dephosphorylating Serine and Threonine Residues in Proteins
86 The Structure and Topology of Protein Serine/Threonine Phosphatases
87 Naturally Occurring Inhibitors of Protein Serine/Threonine Phosphatases
88 Protein Phosphatase 1 Binding Proteins
89 Protein Serine/Threonine Phosphatase Inhibitors and Human Disease
90 Calcineurin
91 Protein Serine/Threonine-Phosphatase 2C (PP2C)
92 Approaches to the Identification of Protein Tyrosine Phosphatase Substrates
93 Inhibitors of Protein Tyrosine Phosphatases
94 Regulating Receptor PTP Activity
95 CD45

Ordering:

Order Online - http://www.researchandmarkets.com/reports/1765195/
Order by Fax - using the form below
Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank, 27-35 Main Street, Blackrock, Co. Dublin, Ireland.
