
Description: Nanoscience is of central importance in the physical and biological sciences and is now pervasive in technology. However nanomagnetism has a special role to play as magnetic properties depend uniquely on both dimensionality and lengthscales. Nanomagnetism is already central to data storage, sensor and device technologies but is increasingly being used in the life sciences and medicine. This volume aims to introduce scientists, computer scientists, engineers and technologists from diverse fields to this fascinating and technologically important new branch of nanoscience. The volume should appeal to both the interested general reader but also to the researcher wishing to obtain an overview of this fast moving field.

The contributions come from acknowledged leaders in the field who each give authoritative accounts of key fundamental aspects of nanomagnetism to which they have themselves made a major contribution. After a brief introduction by the editors, Wu first surveys the fundamental properties of magnetic nanostructures. The interlayer exchange interactions within magnetic multilayer structures is next discussed by Stiles. Camley then discusses the static, dynamic and thermal properties of magnetic multilayers and nanostructures, followed by an account of the phenomenon of exchange anisotropy by Berkowitz and Kodama. This latter phenomenon is widely in current read head devices for example. The transport properties of nanostructures also are spectacular, and again underpin computer technology, as we see from the discussion of giant magnetoresistance (GMR) and tunnelling magnetoresistance (TMR) presented by Fert and his colleagues. Beyond GMR and TMR we look to the field of spintronics where new electronic devices are envisioned and for which quantum computing may depend as discussed in the chapter by Flatt and Jonker.

The volume concludes with discussion of the recently discovered phenomenon of current induced switching of magnetization by Edwards and Mathon.

Subject is in the forefront of nanoscience
All Section authors are leading figures in this key field
Presentations are accessible to non specialists, with focus on underlying fundamentals

Contents:

Series Preface
Volume Preface
Section 1: The Field of Nanomagnetism (J.A.C. Bland and D.L. Mills)
Section 2: Fundamental Properties of Magnetic Nanostructures
   A Survey (R. Wu)
Section 3: Exchange Coupling in Magnetic Multilayers (M.D. Stiles)
Section 4: Static, Dynamic and Thermal Properties of Magnetic Multilayers and Nanostructures (R.E. Camley)
Section 5: Exchange Anisotropy (A.E. Berkowitz and R.H. Kodama)
Section 6: Spin Transport in Magnetic Multilayers and Tunnel Junctions (A. Fert, A. Barth and F. Petroff)
Section 7: Electrical Spin Injection and Transport in Semiconductors (B.T. Jonker and M.E. Flatt)
Section 8: Current Induced Switching of Magnetism (C.M. Edwards and J. Mathon)

Ordering:
Order Online - http://www.researchandmarkets.com/reports/1768541/
Order by Fax - using the form below
Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Web Address: http://www.researchandmarkets.com/reports/1768541/
Office Code: SCPL27F2

Product Format
Please select the product format and quantity you require:

<table>
<thead>

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:

Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:

Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083310383
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
