Pinch Analysis and Process Integration. Edition No. 2

Description: Pinch analysis and related techniques are the key to design of inherently energy-efficient plants. This book shows engineers how to understand and optimize energy use in their processes, whether large or small. Energy savings go straight to the bottom line as increased profit, as well as reducing emissions.

This is the key guide to process integration for both experienced and newly qualified engineers, as well as academics and students. It begins with an introduction to the main concepts of pinch analysis, the calculation of energy targets for a given process, the pinch temperature and the golden rules of pinch-based design to meet energy targets.

Supported by valuable downloadable software, the book shows how to extract the stream data necessary for a pinch analysis and describes the targeting process in depth. Other essential details include the design of heat exchanger networks, hot and cold utility systems, CHP (combined heat and power), refrigeration and optimization of system operating conditions. Many tips and techniques for practical application are covered, supported by several detailed case studies and other examples covering a wide range of industries, including buildings and other non-process situations.

The only dedicated pinch analysis and process integration guide, fully revised and expanded supported by free downloadable energy targeting software. The perfect guide and reference for chemical process, food and biochemical engineers, plant engineers and professionals concerned with energy optimisation, including building designers. Covers the practical analysis of both new and existing systems, with full details of industrial applications and case studies.

Contents:

- Introduction.
- Key Concepts of Pinch Analysis.
- Data Extraction and Targeting.
- Heat Exchanger Network Design.
- Process Change and Evolution.
- Batch and Time-Dependent Processes.
- Practical Application.
- Case Studies.
- Conclusions.
- References.

Ordering:

Order Online - [http://www.researchandmarkets.com/reports/1769480/](http://www.researchandmarkets.com/reports/1769480/)

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylor's Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Pinch Analysis and Process Integration. Edition No. 2
Web Address: http://www.researchandmarkets.com/reports/1769480/
Office Code: SCDK1S4Q

Product Format
Please select the product format and quantity you require:

| Quantity | Hard Copy (Hard Back): USD 86 + USD 29 Shipping/Handling |

* Shipping/Handling is only charged once per order.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
