This PDF Express report is a summary of the main database which contains 10081 spreadsheets and 9633
database tables. In fact the data in this Summary PDF is derived from only 300 of the 10081 datasets, and
less than 10% of the data in the selected spreadsheets. For example, the main database provides market
data from 1997 to 2016 and 2017 to 2044, however simply by adding the missing years would increase the
number of pages fourfold – and make this PDF unmanageable.

After reading this report, if readers find that they need more data than contained in this PDF then there is a
simple Upgrade process to purchase the full database edition. In addition there is a Coupon in the PDF
report which clients can use to get a reduction on the price of the full database edition.
