Proteomic biomarker discovery for preeclampsia. Edition No. 1

Description: Preeclampsia is a serious multisystem complication of late pregnancy with adverse effects for mothers and babies. Currently this disorder is diagnosed from clinical observations occurring late in the disease process. Unknown factors in the maternal circulation, possibly released by the preeclamptic placenta, have been linked to the pathophysiological changes characteristic of the disorder. The research described here used proteomic techniques to identify putative preeclampsia biomarkers from two sources: secreted from a placental cell line undergoing differentiation, and directly sampled from the serum and plasma of women with late-onset preeclampsia. The differentially regulated proteins found here provide an important first step towards developing effective biomarkers for diagnosing and/or predicting preeclampsia.

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Proteomic biomarker discovery for preeclampsia. Edition No. 1
Web Address: http://www.researchandmarkets.com/reports/1901240/
Office Code: SCDK1SO5

Product Format
Please select the product format and quantity you require:

<table>
<thead>
<tr>
<th>Quantity</th>
<th>Hard Copy (Paper back):</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>USD 92 + USD 29 Shipping/Handling</td>
</tr>
</tbody>
</table>

* Shipping/Handling is only charged once per order.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title:
