Rural Woman's Health: Work During Pregnancy and Birth Outcome. Edition No. 1

Description: Working less heavily or stopped to work were positively associated to the birth of healthy child. Working less heavily during the time of pregnancy had only small risk of having the birth of low weight child. Moreover, reduction in both household and outside work or stopped to do either of the work may have higher risk preterm birth and cesarean delivery. Small reduction or working same as before, in either of the work associated with the birth of healthy child.
