What Makes Strong Canadian Military Marriages Strong?. Edition No. 1

Description: Studying the concept of marriage in uncharted domains is a critical task, and researchers face the challenge of developing practical knowledge that is of ready use to clinicians. With respect to marital relationships, an unexplored and complex culture worthy of this inquiry is the Canadian Forces. As marriage and the military are two very demanding institutions and many couples remain committed to both, there is reason to believe that somewhere within this population are key insights into marital success. The research question posed here was: What makes strong Canadian military marriages strong? Through the use of purposive sampling, 17 in-depth individual interviews were conducted on spouses who met specific criteria. The well-established qualitative approach of Grounded Theory method was used. The findings led to the development of the Resilient Canadian Military Marriage Model and it is proposed here that the concepts outlined in it are critical to good marital health.
