Precision Positioning of Automatically Guided Vehicles. Edition No. 1

Description: To meet customer product demands with short lead-times and minimal tooling costs, it is necessary to have Flexible Manufacturing System with the required degree of material handling flexibility. Automatically Guided Vehicle (AGV) system operating at high level of intelligence is needed to achieve this flexibility. This book presents the current research trends in the area followed by development process of a prototype of a novel AGV system. The AGVs are controlled by Global Vision Feedback through a camera mounted on the ceiling of the manufacturing cell, which provides the images of top view of the cell in real-time. Since the paths are not hard coded, this approach allows change in the AGV paths dynamically, thus making the AGV system truly flexible.

Ordering: Order Online - http://www.researchandmarkets.com/reports/1916324/

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Precision Positioning of Automatically Guided Vehicles. Edition No. 1
Web Address: http://www.researchandmarkets.com/reports/1916324/
Office Code: SCDKNUD8

Product Format
Please select the product format and quantity you require:
