Protein Purification from Tomato. Edition No. 1

Description: This work is dedicated to protein purification. When we talk of proteins someone has rightly said "never waste pure thoughts on an impure protein". Nothing makes sense unless are really working on pure protein. This book will be useful to the beginners of protein purification. The book systemetically illustrates the points to partially purify the protein alpha D mannosidae from Tomato (Lycopersicon esculentum. The crude tomato has been used to isolate alpha D mannosidae. The book typically explains the basic details right from crushing of the crude tomato in liquid nitrogen to ammonium sulphate precipitation and dialysis to remove the salt. The purification step used are ion exchange chromatography and gel filtration. Activity of the purified enzyme was checked by taking the substrate p-nitrophenyl ?-D manno.pyanosidase.

Order by Fax - using the form below
Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/
