Supply Chain Event Management RFP Template

Description: The Supply Chain Event Management RFI/RFP Template lists and describes 83 features and functions found in Supply Chain Event Management software solutions. This Supply Chain Event Management Template can help you save time, control costs, and communicate clearly with vendors at nearly every stage of your Supply Chain Event Management software selection projects. Features and functions included in this Supply Chain Event Management Template:

- Monitor and Resolve
- Integration
- Business Intelligence and Reporting
- Business Applications Catalogue
- Data Management
- Architecture
- Product Technology

This functional and technical requirement set template covers industry-standard functional criteria of Supply Chain Event Management that can help you easily gather and prioritize your business needs in a simple and categorized excel document. More than a RFP template, it is a working document that serves as a knowledge base reference throughout the life-span of your Supply Chain Event Management software project.

Use this template to gather your Supply Chain Event Management requirements, build RFIs and RFPs, and track the progress of your software implementation.

Gather Your Supply Chain Event Management Requirements Quickly and Effectively

- Identify and prioritize the features and functions you need instead of building a list from scratch.
- Easily add your company’s unique Supply Chain Event Management requirements.
- Find out what features and functions vendors support, and how they support them.

Collect Clear Supply Chain Event Management RFI and RFP Responses

- Improve vendor participation by issuing RFIs that vendors can understand, and respond to easily.
- Use RFI responses to create lists of requirements for your RFPs or requests for quotation (RFQs).
- Make sure that vendors understand and can support all your requirements.

Eliminate Supply Chain Event Management Implementation Surprises

- Get a clear picture of any required customizations.
- Help Supply Chain Event Management vendors accurately cost required development work.
- Compare your existing systems to the winning solution (gap analysis).
