Smart Metering in North America and Asia-Pacific – 2nd Edition

Description: Are you looking for detailed information and comprehensive data about the North American and Asia-Pacific smart metering markets? Berg Insight's analyst team has been covering smart metering continuously for more than nine years. Learn more about the latest developments on two of the most dynamic market regions that will see massive smart metering projects realised over the next five to ten years.

Smart Metering in North America and Asia-Pacific is the second consecutive market report from Berg Insight analysing the latest developments for smart metering in two dynamic regions.

This strategic research report from Berg Insight provides you with over 160 pages of unique business intelligence, including 5-year industry forecasts, expert commentary and real-life case studies on which to base your business decisions.

Highlights from the report:
- Case studies of smart metering projects by the leading energy industry players in North America and Asia-Pacific.
- In-depth market profiles of the US, Canada, China, Japan, South Korea, Australia and New Zealand.
- Status updates on the development of smart grid and communication technology.
- Profiles of the key players in the smart metering industry in North America and Asia-Pacific.
- Forecasts for smart meter shipments and penetration rates until 2016.
- Analysis of the latest market and industry developments in each region.

This report answers the following questions:
How are national energy policies driving the adoption of smart metering?
What new smart metering projects have been enabled by the US federal stimuli funds?
What are the plans for smart meters deployments in British Columbia and Québec?
When will China start the construction of a nationwide smart metering data network?
What is the role for smart metering in South Korea's national smart grid plan?
What is the current status for smart metering in Japan?
What is driving adoption of smart meters in Australia and New Zealand?
Who are leading the race for market leadership in North America?
Which are the main providers of PLC and wireless communication technology for smart meters?
Which are the emerging top players in the Chinese smart metering industry?

Who should buy this report?
Smart Metering in North America and Asia-Pacific is the foremost source of information about the ongoing transformation of the metering sector. Whether you are a vendor, utility, telecom operator, investor, consultant or government agency, you will gain valuable insights from our in-depth research.
