Biological Inorganic Chemistry. Edition No. 2

Description: Biological Inorganic Chemistry: A New Introduction to Molecular Structure and Function, Second Edition, provides a comprehensive discussion of the biochemical aspects of metals in living systems. Beginning with an overview of metals and selected nonmetals in biology, the book then discusses the following concepts: basic coordination chemistry for biologists; structural and molecular biology for chemists; biological ligands for metal ions; intermediary metabolism and bioenergetics; and methods to study metals in biological systems. The book also covers metal assimilation pathways; transport, storage, and homeostasis of metal ions; sodium and potassium channels and pumps; magnesium phosphate metabolism and photoreceptors; calcium and cellular signaling; the catalytic role of several classes of mononuclear zinc enzymes; the biological chemistry of iron; and copper chemistry and biochemistry. In addition, the book discusses nickel and cobalt enzymes; manganese chemistry and biochemistry; molybdenum, tungsten, vanadium, and chromium; non-metals in biology; biomineralization; metals in the brain; metals and neurodegeneration; metals in medicine and metals as drugs; and metals in the environment.

- Winner of a 2013 Textbook Excellence Awards (Texty) from the Text and Academic Authors Association
- Readable style, complemented by anecdotes and footnotes
- Enables the reader to more readily grasp the biological and clinical relevance of the subject
- Color illustrations enable easy visualization of molecular mechanisms

Contents: The role of metals in biology
an overview
Basic coordination chemistry for biologists
Structural and molecular biology for chemists
Biological ligands for metal ions
An overview of intermediary metabolism and bioenergetics
Methods which can be used to study metals in biology
Metal assimilation pathways
Transport, storage and homeostasis of metal ions
Sodium and potassium
Calcium
Magnesium
Zinc
Iron
Copper
Nickel and cobalt
Manganese
Molybdenum, vanadium, tungsten and chromium
Metals in brain function
Biomineralisation
Metals in medicine and the environment
Concluding remarks

Ordering:
Order Online - http://www.researchandmarkets.com/reports/1951497/
Order by Fax - using the form below
Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Biological Inorganic Chemistry. Edition No. 2
Web Address: http://www.researchandmarkets.com/reports/1951497/
Office Code: SCBRD44L

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets, Guinness Center, Taylors Lane, Dublin 8, Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank, 27-35 Main Street, Blackrock, Co. Dublin, Ireland.
