Water Utilities in the Czech Republic

Description:

Water Utilities in the Czech Republic industry profile provides top-line qualitative and quantitative summary information including: market size (value 2010-14, and forecast to 2019). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market. Essential resource for top-line data and analysis covering the Czech Republic water utilities market. Includes market size data, textual and graphical analysis of market growth trends, leading companies and macroeconomic information.

Highlights

- The water utilities industry consists of all water that is collected, treated and distributed to agricultural, industrial, and residential end-users. The industry is valued using average annual end-user prices alongside consumption volumes. All currency conversions used in the creation of this report have been calculated using constant 2013 annual average exchange rates.

- The Czech water utilities industry is expected to generate total revenues of $2.3bn in 2014, representing a compound annual growth rate (CAGR) of 4.2% between 2010 and 2014.

- Industry consumption volume is forecast to increase with a CAGR of 0.3% between 2010 and 2014, to reach a total of 2 billion cubic meters in 2014.

- The performance of the industry is forecast to follow a similar pattern with an anticipated CAGR of 4.1% for the five-year period 2014 - 2019, which is expected to drive the industry to a value of $2.8bn by the end of 2019.

Features

Save time carrying out entry-level research by identifying the size, growth, and leading players in the water utilities market in the Czech Republic

Use the Five Forces analysis to determine the competitive intensity and therefore attractiveness of the water utilities market in the Czech Republic

Leading company profiles reveal details of key water utilities market players' global operations and financial performance

Add weight to presentations and pitches by understanding the future growth prospects of the Czech Republic water utilities market with five year forecasts

Macroeconomic indicators provide insight into general trends within the Czech Republic economy
