Sustainable Performance Leaders - Industry Benchmark - Software Industry

Description:
The Industry Benchmark reports are packed with proprietary data and analytics to reveal the sustainability dynamics in an industry.

They benchmark the top ten (10) leading companies in an industry against each other and the industry as a whole, highlighting leaders and laggards across the four dimensions of financial, environmental, social and governance performance.

This report contains an Environmental, Social and Corporate Governance (ESG) overview of the software industry and an ESG comparative analysis of top Industry Benchmark companies through a CRD proprietary tool Smartview.

SmartView is CRD Analytics' proprietary investment platform that screens and ranks companies based on over 150 quantitative financial, environmental and social performance indicators. SmartView enables us to measure sustainable performance and to force rank the best- and worst-in-class companies in every sector and segment in order to illuminate the strongest investment choices and develop indexes that deliver superior risk adjusted returns.
