High-Pressure Fluid Phase Equilibria, Vol 2. Supercritical Fluid Science and Technology

Description: The book begins with an overview of the phase diagrams of fluid mixtures (fluid = liquid, gas, or supercritical state), which can show an astonishing variety when elevated pressures are taken into account; phenomena like retrograde condensation (single and double) and azeotropy (normal and double) are discussed. It then gives an introduction into the relevant thermodynamic equations for fluid mixtures, including some that are rarely found in modern textbooks, and shows how they can be used to compute phase diagrams and related properties. This chapter gives a consistent and axiomatic approach to fluid thermodynamics; it avoids using activity coefficients. Further chapters are dedicated to solid-fluid phase equilibria and global phase diagrams (systematic search for phase diagram classes). The appendix contains numerical algorithms needed for the computations. The book thus enables the reader to create or improve computer programs for the calculation of fluid phase diagrams.

- introduces phase diagram classes, how to recognize them and identify their characteristic features
- presents rational nomenclature of binary fluid phase diagrams
- includes problems and solutions for self-testing, exercises or seminars

Contents:
1 Introduction
2 Phenomenology of phase diagrams
3 Experimental observation of phase equilibria
4 Thermodynamic variables and functions
5 Stability and equilibrium
6 Solid-fluid equilibrium
7 Equations of state for pure fluids
8 Equations of state for mixtures
9 Global phase diagrams
Appendix: A Algebraic and numeric methods
B Proofs
C Equations of state

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
- Account number: 833 130 83
- Sort code: 98-53-30
- Swift code: ULSBIE2D
- IBAN number: IE78ULSB98533083313083
- Bank Address: Ulster Bank,
  27-35 Main Street,
  Blackrock,
  Co. Dublin,
  Ireland.
