Games Software in Spain

Description:
Games Software in Spain industry profile provides top-line qualitative and quantitative summary information including: market size (value 2008-12, and forecast to 2017). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market. Essential resource for top-line data and analysis covering the Spain games software market. Includes market size data, textual and graphical analysis of market growth trends, leading companies and macroeconomic information.

Highlights
- The games software market consists of the total revenues generated through the sale of console games and PC & Mac games. Console games include the software used in games consoles hardware such as the Nintendo Wii, Playstation 3 and Xbox 360. This also includes the software that is used in wireless or portable handheld devices such as the Nintendo DS, mobile and personal digital assistants (pdas), Playstation Portable and Game Boy Advance. This category excludes the revenue generated through the sales of games consoles and handheld devices. The PC and Mac games segment includes PC games and Mac games and excludes online games such as casual games, massively multi player online role play games (mmorg). The market is valued at retail selling price (RSP) with any currency conversions calculated using constant 2011 annual average exchange rates.
- The Spanish games software market is forecast to generate total revenues of $802.7 in 2012, representing a compound annual rate of change (CARG) of -7.1% between 2008 and 2012.
- Sales generated through electricals and electronics retailers are expected to be the most lucrative for the Spanish games software market in 2012, with total revenues of $486.2m, equivalent to 60.6% of the market's overall value.
- The performance of the market is forecast to accelerate, with an anticipated CAGR of 3.2% for the five-year period 2012 - 2017, which is expected to drive the market to a value of $938m by the end of 2017.
