Software Evolution and Feedback. Theory and Practice

Description: Evolution of software has long been recognized as one of the most problematic and challenging areas in the field of software engineering, as evidenced by the high, often up to 60-80%, life-cycle costs attributed to this activity over the life of a software system. Studies of software evolution are central to the understanding and practice of software development. Yet it has received relatively little attention in the field of software engineering. This book focuses on topics aimed at giving a scientific insight into the aspect of software evolution and feedback.

In summary, the book covers conceptual, phenomenological, empirical, technological and theoretical aspects of the field of software evolution - with contributions from the leading experts.

This book delivers an up-to-date scientific understanding of what software evolution is, to show why it is inevitable for real world applications, and it demonstrates the role of feedback in software development and maintenance. The book also addresses some of the phenomenological and technological underpinnings and includes rules and guidelines for increased software evolvability and, in general, sustainability of the evolution process.

Software Evolution and Feedback provides a long overdue, scientific focus on software evolution and the role of feedback in the software process, making this the indispensable guide for all software practitioners, researchers and managers in the software industry.

Contents: List of Contributors.

PART ONE SOFTWARE EVOLUTION.

1 Software Evolution (Meir Lehman and Juan Fernandez Ramil).

2 A Nontraditional View of the Dimensions of Software Evolution (Dewayne E. Perry).

4 Facets of Software Evolution (Roland T. Mittermeir).

6 A Simple Model of Software System Evolutionary Growth (Wladyslaw M. Turski).

7 Statistical Modelling of Software Evolution Processes (Tetsuo Tamai and Takako Nakatani).

8 A Case Study of Software Requirements Changes Due to External Factors (Vic Nanda and Nazim H. Madhavji).

9 Understanding Open-Source Software Evolution (Walt Scacchi).

10 Structural Analysis of Open Source Systems (Andrea Capiluppi, Maurizio Morisio and Juan Fernandez-Ramil).

11 A Study of Software Evolution at Different Levels of Granularity (Elizabeth Burd).

12 The Role of Ripple Effect in Software Evolution (Sue Black).

13 The Impact of Software-Architecture Compliance on System Evolution (R. Mark Greenwood, Ken Mayes,
Wykeen Seet, Brian C. Warboys, Dharini Balasubramaniam, Graham Kirby, Ron Morrison and Aled Sage).

14 Comparison of Three Evaluation Methods for Object-Oriented Framework Evolution (Michael Mattsson).

15 Formal Perspectives on Software Evolution: from Refinement to Retrenchment (Michael Poppleton and Lindsay Groves).

16 Background and Approach to Development of a Theory of Software Evolution (Meir M Lehman and Juan Fernandez Ramil).

17 Difficulties with Feedback Control in Software Processes (Meir M. Lehman, Dewayne E. Perry and Wlad Turski).

18 Policy-Guided Software Evolution (Nazim H. Madhavji and Josee Tasse).

19 Feedback in Requirements Discovery and Specification: a Quality Gateway for Testing Requirements (Suzanne Robertson).

20 Requirements Risk and Software Reliability (Norman F. Schneidewind).

21 Combining Process Feedback with Discrete Event Simulation Models to Support Software Project Management (David Raffo and Joseph Vandeville).

22 A Feedforward Capability to Improve Software Reestimation (William W. Agresti).

23 Modelling the Feedback Part of the Software Process in Software Resource Estimation (Juan Fernandez-Ramil and Sarah Beecham).

24 Value-Based Feedback in Software and Information Systems Development (Barry Boehm and LiGuo Huang).

26 Self-Adaptive Software: Internalized Feedback (Robert Laddaga, Paul Robertson and Howard Shrobe).

27 Rules and Tools for Software Evolution Planning and Management (Meir M (Manny) Lehman and Juan Fernandez Ramil).

Index.

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Software Evolution and Feedback. Theory and Practice
Web Address: http://www.researchandmarkets.com/reports/2171306/
Office Code: SCAYPE29

Product Format
Please select the product format and quantity you require:

Quantity
Hard Copy (Hard Back): □ USD 145 + USD 28 Shipping/Handling

* Shipping/Handling is only charged once per order.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title: Mr □ Mrs □ Dr □ Miss □ Ms □ Prof □
First Name: ___________________________ Last Name: ___________________________
Email Address: * ___________________________
Job Title: ___________________________
Organisation: ___________________________
Address: ___________________________
City: ___________________________
Postal / Zip Code: ___________________________
Country: ___________________________
Phone Number: ___________________________
Fax Number: ___________________________

* Please refrain from using free email accounts when ordering (e.g. Yahoo, Hotmail, AOL)
Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:

Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:

Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
