Purinergic Approaches in Experimental Therapeutics

Description: Edited by Kenneth A. Jacobson and Michael F. Jarvis

The roles of extracellular purines and pyrimidines in cellular homeostasis and disease etiology have come to be understood gradually over the past 40 years. However, due to the recent cloning and expression of receptors for ATP and adenosine, novel compounds have been developed with unique therapeutic potential for the treatment of thrombosis, stroke, epilepsy, chronic pain, immunological disorders, and cancer. As a result, the study of adenosine– and ATP–mediated responses in cellular regulation is entering a phase of opportunity and development unmatched since the days of serotonin receptor research in the 1970s.

The only definitive book on the topic, Purinergic Approaches in Experimental Therapeutics covers all of the major therapeutic applications of purinergic receptors and reflects the very latest developments in this new area of therapeutic research. Twenty–eight chapters, authored by an international group of contributors who are the leading authorities in the field, provide details on molecular pharmacology; medicinal chemistry; and therapeutic implications, including cardiology, metabolism, immunology, neurology, and cancer.

Among the topics covered:

- Purinergic Neurotransmission and Neuromodulation: A Historical Perspective
- Adenosine Receptor Subtypes: New Insights From Cloning and Functional Studies
- Modulators of Adenosine Uptake, Release, and Inactivation
- Cardiac Electrophysiology of Adenosine: Antiarrhythmic and Proarrhythmic Actions
- Purinergic Modulation of Gastrointestinal Function
- The Role of Adenosine in Asthma
- ATP in Brain Function
- ATP in the Treatment of Cancer

For researchers in pharmacology, physiology, molecular biology, and medicinal chemistry, Purinergic Approaches in Experimental Therapeutics heralds an exciting new era in the understanding of purinergic neurotransmission and the development of novel therapeutic modalities.

Contents: Partial table of contents:

HISTORICAL PERSPECTIVE.

Purinergic Neurotransmission and Neuromodulation: A Historical Perspective (M. Williams & G. Burnstock).

MOLECULAR PHARMACOLOGY.

Adenosine Receptor Subtypes: New Insights From Cloning and Functional Studies (G. Stiles).

MEDICINAL CHEMISTRY.

Development of Selective Purinoceptor Agonists and Antagonists (K. Jacobson & A. van Rhee).

THERAPEUTIC IMPLICATIONS.

Cardiac Electrophysiology of Adenosine: Antiarrhythmic and Proarrhythmic Actions (L. Belardinelli, et al.).

The Role of Adenosine in Asthma (M. Jacobson and T. Bai).

Psychomotor Aspects of Adenosine Receptor Activation (M. Jarvis).

Adenosine Effects in Sleep Apnea (D. Carley & M. Radulovacki).
ATP in the Treatment of Cancer (E. Rapaport).

Index.

Ordering:

Order Online - [http://www.researchandmarkets.com/reports/2172427/](http://www.researchandmarkets.com/reports/2172427/)

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Purinergic Approaches in Experimental Therapeutics
Web Address: http://www.researchandmarkets.com/reports/2172427/
Office Code: SCD2KDZ6

Product Format
Please select the product format and quantity you require:

| Quantity | Hard Copy (Hard Back) | USD 323 + USD 29 Shipping/Handling |

* Shipping/Handling is only charged once per order.

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
