
Description: A trusted classic on the key methods in population sampling—now in a modernized and expanded new edition

Sampling of Populations, Fourth Edition continues to serve as an all-inclusive resource on the basic and most current practices in population sampling. Maintaining the clear and accessible style of the previous edition, this book outlines the essential statistical methods for survey design and analysis, while also exploring techniques that have developed over the past decade.

The Fourth Edition successfully guides the reader through the basic concepts and procedures that accompany real-world sample surveys, such as sampling designs, problems of missing data, statistical analysis of multistage sampling data, and nonresponse and poststratification adjustment procedures. Rather than employ a heavily mathematical approach, the authors present illustrative examples that demonstrate the rationale behind common steps in the sampling process, from creating effective surveys to analyzing collected data. Along with established methods, modern topics are treated through the book's new features, which include:

- A new chapter on telephone sampling, with coverage of declining response rates, the creation of "do not call" lists, and the growing use of cellular phones
- A new chapter on sample weighting that focuses on adjustments to weight for nonresponse, frame deficiencies, and the effects of estimator instability
- An updated discussion of sample survey data analysis that includes analytic procedures for estimation and hypothesis testing
- A new section on Chromy's widely used method of taking probability proportional to size samples with minimum replacement of primary sampling units
- An expanded index with references on the latest research in the field

All of the book's examples and exercises can be easily worked out using various software packages including SAS, STATA, and SUDAAN, and an extensive FTP site contains additional data sets. With its comprehensive presentation and wealth of relevant examples, Sampling of Populations, Fourth Edition is an ideal book for courses on survey sampling at the upper-undergraduate and graduate levels. It is also a valuable reference for practicing statisticians who would like to refresh their knowledge of sampling techniques.

Contents: Tables.

Boxes.

Figures.

Getting Files from the Wiley ftp and Internet Sites.

List of Data Sites Provides on Web Site.

Preface to the Fourth Edition.

Part 1: Basic Concepts.

1. Use of Sample Surveys.

2. The Population and the Sample.

Part 2: Major Sampling Designs and Estimation Procedures.

5. Stratification and Stratified Random Sampling.
7. Ratio Estimation.
9. Simple One-Stage Cluster Sampling.
10. Two-Stage Cluster Sampling: Clusters Sampled with Equal Probability.
Part 3: Selected Topics in Sample Survey Methodology.
14. Selected Topics in Sample Design and Estimation Methodology.
15. Telephone Survey Sampling (Michael W. Link and Mansour Fahimi).
17. Strategies for Design-Based Analysis of Sample Survey Data.
Appendix.
Answers to Selected Exercises.
Index.

Ordering:
Order Online - http://www.researchandmarkets.com/reports/2173645/
Order by Fax - using the form below
Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit
http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Web Address: http://www.researchandmarkets.com/reports/2173645/
Office Code: SCLOPGHA

Product Format
Please select the product format and quantity you require:

Quantity
Hard Copy (Hard Back): [ ] USD 164 + USD 28 Shipping/Handling

* Shipping/Handling is only charged once per order.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title: [ ] Mr [ ] Mrs [ ] Dr [ ] Miss [ ] Ms [ ] Prof
First Name: ____________________________ Last Name: ____________________________
Email Address: * ____________________________

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
