VSAT Networks. 2nd Edition

Description: VSAT Networks: Second Edition covers all the important issues involved with the installation of VSAT systems. Since the first edition was published, the VSAT market has continued to expand steadily. VSAT technologies have advanced, prompting an increase in the take-up of VSAT services. Offering a comprehensive introduction to the topic followed by a detailed exploration of multiple access protocols, delay analysis and system dimensioning, this edition is a highly relevant update of VSAT Networks. Written by a well respected and established member of the satellite community, it will be welcomed by academics and engineers alike.
- Covers important issues of services, economics and regulatory aspects
- Provides a detailed technical insight on networking and radio frequency link aspects, therefore addressing the specific features of VSAT networks at the three lower layers of the OSI Reference Layer Model for data communications
- This timely second edition is fully updated with new figures, improvements and revised chapter on future developments

This book will appeal to students of telecommunications, electronics and computer science. Practising telecommunications engineers and technical managers involved in the planning, design and operation of VSAT networks and systems will also find this book a valuable reference source.

Contents: Preface.

Acronyms and Abbreviations.

Notation.

1. Introduction.

1.1 VSAT network definition.

1.2 VSAT network configurations.

1.3 User terminal connectivity.

1.4 VSAT network applications and types of traffic.

1.4.1 Civilian VSAT networks.

1.4.2 Military VSAT networks.

1.5 VSAT networks: involved parties.

1.6 VSAT network options.

1.6.1 Star or mesh?

1.6.2 Data/voice/video.

1.6.3 Fixed/demand assignment.

1.6.4 Frequency bands.

1.6.5 Hub options.

1.7 VSAT network earth stations.
1.7.1 VSAT station.
1.7.2 Hub station.
1.8 Economic aspects.
1.9 Regulatory aspects.
1.9.1 Licensing.
1.9.2 Access to the space segment.
1.9.3 Local regulations.
1.10 Conclusions.
1.10.1 Advantages.
1.10.2 Drawbacks.

2. Use of satellites for VSAT networks.
2.1 Introduction.
2.1.1 The relay function.
2.1.2 Transparent and regenerative payload.
2.1.3 Coverage
2.1.4 Impact of coverage on satellite relay performance.
2.1.5 Frequency reuse.

2.2 Orbits.
2.2.1 Newton's universal law of attraction.
2.2.2 Orbital parameters.

2.3 The geostationary satellite.
2.3.1 Orbit parameters.
2.3.2 Launching the satellite.
2.3.3 Distance to the satellite.
2.3.4 Propagation delay.
2.3.5 Conjunction of the sun and the satellite.
2.3.6 Orbit perturbations.
2.3.7 Apparent satellite movement.
2.3.8 Orbit corrections.
2.3.9 Doppler effect.

2.4 Satellites for VSAT services.
3. Operational aspects.

3.1 Installation.
3.1.1 Hub.
3.1.2 VSAT.
3.1.3 Antenna pointing.

3.2 The customer’s concerns.
3.2.1 Interfaces to end equipment.
3.2.2 Independence from vendor.
3.2.3 Set-up time.
3.2.4 Access to the service.
3.2.5 Flexibility.
3.2.6 Failure and disaster recovery.
3.2.7 Blocking probability.
3.2.8 Response time.
3.2.9 Link quality.
3.2.10 Availability.
3.2.11 Maintenance.
3.2.12 Hazards.
3.2.13 Cost.

4.1 Network functions.
4.2 Some definitions.
4.2.1 Links and connections.
4.2.2 Bit rate.
4.2.3 Protocols.
4.2.4 Delay.
4.2.5 Throughput.
4.2.6 Channel efficiency.
4.2.7 Channel utilization.

4.3 Traffic characterization.
4.3.1 Traffic forecasts.
4.3.2 Traffic measurements.
4.3.3 Traffic source modeling.

4.4 The OSI reference model for data communications.
4.4.1 The physical layer.
4.4.2 The data link layer.
4.4.3 The network layer.
4.4.4 The transport layer.
4.4.5 The upper layers (5 to 7).

4.5 Application to VSAT networks.
4.5.1 Physical and protocol configurations of a VSAT network.
4.5.2 Protocol conversion (emulation).
4.5.3 Reasons for protocol conversion.

4.6 Multiple access.
4.6.1 Basic multiple access protocols.
4.6.2 Meshed networks.
4.6.3 Star-shaped networks.
4.6.4 Fixed assignment versus demand assignment.
4.6.5 Random time division multiple access.
4.6.6 Delay analysis.
4.6.7 Conclusion.

4.7 Network design.
4.7.1 Principles.
4.7.2 Guidelines for preliminary dimensioning.
4.7.3 Example.
4.8 Conclusion.

5. Radio frequency link analysis.
5.1 Principles.
5.1.1 Thermal noise.
5.1.2 Interference noise.
5.1.3 Intermodulation noise.
5.1.4 Carrier power to noise power spectral density ratio.
5.1.5 Total noise.
5.2 Uplink analysis.
5.2.1 Power flux density at satellite distance.
5.2.2 Effective isotropic radiated power of the earth station.
5.2.3 Uplink path loss.
5.2.4 Figure of merit of satellite receiving equipment.
5.3 Downlink analysis.
5.3.1 Effective isotropic radiated power of the satellite.
5.3.2 Flux density at earth surface.
5.3.3 Downlink path loss.
5.3.4 Figure of merit of earth station receiving equipment.
5.4 Intermodulation analysis.
5.5 Interference analysis.
5.5.1 Expressions for carrier-to-interference ratio.
5.5.2 Types of interference.
5.5.3 Self-interference.
5.5.4 External interference.
5.5.5 Conclusion.
5.6 Overall link performance.
5.7 Bit error rate determination.
5.8 Power versus bandwidth exchange.
5.9 Example.

Appendix 1: Traffic source models.
Appendix 2: Automatic repeat request (ARQ) protocols.
Appendix 3: Interface protocols.
Appendix 4: Antenna parameters.
Appendix 5: Emitted and received power.
Appendix 6: Carrier amplification.
Appendix 7: VSAT products.

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: VSAT Networks. 2nd Edition  
Web Address: http://www.researchandmarkets.com/reports/2175255/  
Office Code: SCDVVBLC

Product Format
Please select the product format and quantity you require:

<table>
<thead>
<tr>
<th>Quantity</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hard Copy (Hard Back)</td>
</tr>
<tr>
<td>USD 166 + USD 28 Shipping/Handling</td>
</tr>
</tbody>
</table>

* Shipping/Handling is only charged once per order.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title:  
Mr ☐  Mrs ☐  Dr ☐  Miss ☐  Ms ☐  Prof ☐

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
