Green Reaction Media in Organic Synthesis

Description: Green, sustainable chemistry involves the designing of chemical processes with a view to reducing or even eliminating the use and production of hazardous materials. Recent endeavors have focused on limiting the use of organic solvents and replacing them with new, environmentally benign media. The chemical industry is interested in these cost-effective, alternative solvents and processes.

This book provides a broad overview of the three most commonly used green reaction media. Directed at synthetic organic chemists working in academic and industrial laboratories, it will also serve as a textbook for graduate courses on green chemistry. Successful green reactions are considered, and experimental sections at the ends of the chapters provide important practical details, with illustrations of potential applications. Sufficient information is included to allow selection of the most appropriate medium. Extensively referenced, the volume offers a point of entry into the detailed literature.

Contents: Contributors.

Preface.
1. Introduction (Koichi Mikami).
1.1. Green reaction Media.
1.2. Ionic liquids.
1.3. Fluorous media.
1.4. Supercritical carbon dioxide.
2. Ionic Liquids (Jonathan J. Jordy and Koichi Mikami).
2.1. Historical background and synthesis.
2.2 Physical properties.
2.3. Applications as reaction media.
2.4. The future of ionic liquids.
2.5. Experimental part.
3. Fluorous solvents (Ilyhyong Ryu and Hiroshi Matsubara).
3.1. Historical background.
3.2. Physical properties.
3.3. Applications as reaction media.
3.4. Light Fluorous compounds and fluorous silica gel.
3.5. Fluorous reactions in supercritical carbon dioxide (ScCO2) and Fluorous triphasic reactions.
3.6. Experimental part.
4. Supercritical carbon dioxide (Christopher M. Rayner and R. Scott Oakes).
4.1. Historical background.
4.2. Physical properties.

4.3. Applications as reaction media.

4.4 Synthesis and separation.

4.5. Experimental methods.

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Green Reaction Media in Organic Synthesis
Web Address: http://www.researchandmarkets.com/reports/2177002/
Office Code: SCDKUQ61

Product Format
Please select the product format and quantity you require:

Quantity
Hard Copy (Hard Back): ☐
USD 231 + USD 29 Shipping/Handling

* Shipping/Handling is only charged once per order.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title: Mr ☐ Mrs ☐ Dr ☐ Miss ☐ Ms ☐ Prof ☐
First Name: __________________________ Last Name: __________________________
Email Address: * __________________________
Job Title: __________________________
Organisation: __________________________
Address: __________________________
City: __________________________
Postal / Zip Code: __________________________
Country: __________________________
Phone Number: __________________________
Fax Number: __________________________

* Please refrain from using free email accounts when ordering (e.g. Yahoo, Hotmail, AOL)
Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:

Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:

Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
