Milk Processing and Quality Management. Society of Dairy Technology series

Description: The Society of Dairy Technology (SDT) has joined with Wiley-Blackwell to produce a series of technical dairy-related handbooks providing an invaluable resource for all those involved in the dairy industry; from practitioners to technologists working in both traditional and modern large-scale dairy operations.

The fifth volume in the series, Milk Processing and Quality Management, provides timely and comprehensive guidance on the processing of liquid milks by bringing together contributions from leading experts around the globe. This important book covers all major aspects of hygienic milk production, storage and processing and other key topics such as:

- Microbiology of raw and market milks
- Quality control
- International legislation
- Safety
- HACCP in milk processing

All those involved in the dairy industry including food scientists, food technologists, food microbiologists, food safety enforcement personnel, quality control personnel, dairy industry equipment suppliers and food ingredient companies should find much of interest in this commercially important book which will also provide libraries in dairy and food research establishments with a valuable reference for this important area.

Contents:

Preface to Technical Series.

Preface.

Contributors.

1 On-Farm Hygienic Milk Production (M.M.M. Vissers AND F. Driehuis).

1.1 Introduction.

1.2 Sources of microbial contamination of bulk tank milk.

1.3 Control of microbial contamination of bulk tank milk.

1.4 Future developments in handling of the milk on the farm.

1.5 Conclusions.

2 Properties and Constituents of Cow’s Milk (T. Huppertz AND A.L. Kelly).

2.1 Introduction.

2.2 Milk composition.

2.3 Milk constituents.

2.4 Heat-induced changes in physicochemical properties of milk.

2.5 Heat-induced changes in processing characteristics of milk.

2.6 Relationship between the quality of raw milk and that of products.

2.7 Conclusions.
3 Microbiology of Raw and Market Milks (V. TOUCH AND H.C. DEETH).

3.1 Introduction.

3.2 Microflora of raw milk.

3.3 Microflora of pasteurised milk.

3.4 Microflora of UHT milk.

3.5 Microflora of ESL milk.

3.6 Sources of contamination.

3.7 Measures to reduce bacterial contamination of raw and market milks.

3.8 Conclusion.

4 Quality Control (J. BELLOQUE, R. CHICON AND I. RECIO).

4.1 Introduction.

4.2 Quality control of raw milk.

4.3 Quality control of processed milk.

4.4 Methods of analysis.

4.5 Major components analysis.

4.6 Analysis of fraudulent addition of ingredients and authentication.

4.7 Conclusion.

5 Current Legislation of Market Milks (M. HICKEY).

5.1 Introduction.

5.2 EU legislation.

5.3 UK legislation.

5.4 Irish legislation.

5.5 USA legislation.

5.6 The international perspective Codex Alimentarius.

5.7 Conclusions and possible future developments.

6 The Safety of Raw Liquid Milk (M. O’MAHONY, S. FANNING AND P. WHYTE).

6.1 Introduction.

6.2 Implication of milk in human disease.

6.3 Microbial hazards in milk.

6.4 Chemical contaminants and residues.

6.5 Poorly understood and emerging hazards.
6.6 Risk management strategies to ensure safety of liquid milk.

6.7 Summation.

7 Heat Treatment of Milk (M.J. LEWIS AND H.C. DEETH).

7.1 Introduction.

7.2 Milk composition.

7.3 Reaction kinetics.

7.4 Principles of heat transfer.

7.5 Thermisation and tyndallisation.

7.6 Pasteurisation.

7.7 Sterilisation safety and spoilage considerations.

7.8 In-container sterilisation.

7.9 UHT processing.

7.10 High-temperature processing (extended shelf life).

7.11 Reconstituted and recombined milk products.

7.12 Conclusions.

7.13 Appendix.

8 Novel Methods of Milk Processing (M. VILLAMIEL, M.A.I. SCHUTYSER AND P. DE JONG).

8.1 Introduction.

8.2 Microwaves.

8.3 High Pressure.

8.4 Pulsed electric fields.

8.5 Ultrasound.

8.6 Microfiltration.

8.7 Innovative steam injection a novel heating method.

8.8 Combined technologies.

8.9 Computer models for design and implementation of novel milk-processing methods.

9.1 Introduction.

9.2 Principal hazards.

9.3 Hygienic processing.

9.4 Monitoring and control.

9.5 Concluding remarks.
10 Hazard Analysis (Appraisal) Critical Control Point (HACCP) in Milk Processing: A Practical Overview (A. SAYLER).

10.1 Introduction.

10.2 General aspects of the benefits of the HACCP system.

10.3 HACCP definitions.

10.4 Implementation and maintenance of the HACCP programme.

10.5 Steps to HACCP implementation.

10.6 Hazard components.

10.7 Prerequisite programme.

10.8 The principles of an HACCP plan.

10.9 Internal and external auditing in the HACCP process.

10.10 Overview and summary.

11.1 Introduction.

11.2 Sensory properties of market milks.

11.3 Different types of market milks.

11.4 Conclusion.

Index.

Ordering: Order Online - http://www.researchandmarkets.com/reports/2178629/

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Milk Processing and Quality Management. Society of Dairy Technology series
Web Address: http://www.researchandmarkets.com/reports/2178629/
Office Code: SCD2YAOD

Product Format
Please select the product format and quantity you require:

<table>

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:

Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:

- Account number: 833 130 83
- Sort code: 98-53-30
- Swift code: ULSBIE2D
- IBAN number: IE78ULSB98533083313083
- Bank Address: Ulster Bank, 27-35 Main Street, Blackrock, Co. Dublin, Ireland.
