Highlights in Colloid Science

Description: Particles of colloidal size (nano scale) have received growing interest because of the many versatile roles they can play in our lives. The better we understand how they function, the more we can use them to our advantage.

This book is a compilation of invited review articles authored by some of the most well-known scientists in the field which covers the latest developments and achievements in colloid and interface science. It is also a dedication to one of the most famous scientists in the field of colloid science—Professor Tharwart Tadros and most of contributors have worked beside this brilliant man at some pint in their career.

Some of the topics discussed are:

- colloid (nano) particles
- surfactant solutions
- wetting phenomena
- thin liquid films
- colloidal liquids
- emulsions
- papermaking
- delivery agents

This book is targeted not just at chemists and material scientists, but anyone involved in a variety of industries where colloid science has a major impact on their lives.

Contents:

- Colloid Systems
- Interfaces
- Emulsions
- Nano–Particles
- Surfactants
- Rheology
- Wetting
- Micro–Emulsions
- Self–Assembly

Order by Fax - using the form below
Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Highlights in Colloid Science
Web Address: http://www.researchandmarkets.com/reports/2183696/
Office Code: SCDKWAF

Product Format
Please select the product format and quantity you require:

<table>
