Blackwell's Five-Minute Veterinary Consult Clinical Companion. Equine Theriogenology

Description: Blackwell's Five-Minute Veterinary Consult Clinical Companion: Equine Theriogenology provides quick access to essential information on common techniques and conditions in equine reproductive practice. Part of the popular Blackwell's Five-Minute Veterinary Consult series, this resource builds on the reproduction section of Blackwell's Five-Minute Veterinary Consult: Equine, Second Edition to present expanded theriogenology coverage with clinical photographs. With information ranging from artificial insemination and fetal sexing to parentage testing and vaccination programs, the book offers 158 similarly-formatted chapters to help practitioners efficiently manage reproductive health in the mare and stallion and confidently treat fetal and neonatal patients.

Key Features:
- Provides a concise, user-friendly resource on topics related to reproduction in the horse
- Uses the popular Blackwell's Five-Minute Veterinary Consult Clinical Companion series format, with bulleted information for easy reference
- Builds on the reproduction section of Blackwell's Five-Minute Veterinary Consult: Equine, Second Edition to present expanded theriogenology coverage with clinical photographs and additional detail to identify and treat specific conditions
- Organized alphabetically for fast access
- Aids practitioners in the efficient and effective treatment of a wide range of reproductive conditions in the mare, stallion, and neonate
