As our population ages and multiple factors contribute to an increased prevalence of cardiovascular disease, more patients than ever before will be candidates for implantable devices as part of their treatment for heart rhythm abnormalities. Clinicians have a widening array of sophisticated devices from which to choose, and important new data about efficacy, long-term outcomes and possible complications has emerged, impacting how devices are chosen and utilized. Overall, the management of patients with pacemakers, ICDs and other devices remains a complex topic and the need for clear-headed, expert guidance has never been greater.

Now in its 3rd edition, Cardiac Pacing, Defibrillation and Resynchronization: A Clinical Approach is the clinically focused guide to pacemakers, ICDs and CRT that caregivers can rely on for answers to common but challenging questions on all aspects of implantable devices, from device selection to implantation, programming and long-term management.

This new edition of Cardiac Pacing, Defibrillation and Resynchronization: A Clinical Approach:
- Provides answers to the most common clinical questions
- Presents a logical progression from descriptions of devices and indications to hardware selection and proper implementation
- Includes important updates in all covered areas, especially in chapters on CRT and ICD therapies, where recent significant advances have been made
- Features over 750 illustrations, most in full color

With its focus on essential clinical information, and sensible, matter-of-fact approach, Cardiac Pacing, Defibrillation and Resynchronization: A Clinical Approach, 3rd edition, is the ideal guide for busy providers. Thoroughly updated to reflect the latest knowledge and with a wealth of visual content to illustrate processes and reinforce key concepts, it is also an invaluable resource for those preparing to take the Electrophysiology boards or other certification examinations.

Contents:
Contributors, vii
Preface, ix
1 Pacing and Defibrillation: Clinically Relevant Basics for Practice 1
T. Jared Bunch, David L. Hayes, Charles D. Swerdlow, Samuel J. Asirvatham, Paul A. Friedman
2 Hemodynamics of Cardiac Pacing: Optimization and Programming to Enhance Cardiac Function 41
Faisal F. Syed, David L. Hayes, Paul A. Friedman, Samuel J. Asirvatham
3 Indications for Pacemakers, ICDs and CRT: Identifying Patients Who Benefit from Cardiac Rhythm Devices 93
Apoor S. Gami, David L. Hayes, Samuel J. Asirvatham, Paul A. Friedman
4 Choosing the Device Generator and Leads: Matching the Device with the Patient 133
Malini Madhavan, David L. Hayes, Paul A. Friedman, Samuel J. Asirvatham
5 Implanting and Extracting Cardiac Devices: Technique and Avoiding Complications 157
Malini Madhavan, Samuel J. Asirvatham, Matthew J. Swale, David L. Hayes, Paul A. Friedman
6 Implant–Related Complications: Relevant Anatomy and an Approach for Prevention 219
Seth H. Sheldon, David L. Hayes, Paul A. Friedman, Samuel J. Asirvatham

7 Timing Cycles 255
David L. Hayes, Paul J. Wang, Samuel J. Asirvatham, Paul A. Friedman

8 Programming: Maximizing Benefit and Minimizing Morbidity Programming 319
Paul A. Friedman, Charles D. Swerdlow, Samuel J. Asirvatham, David L. Hayes

9 Sensor Technology for Rate–Adaptive Pacing and Hemodynamic Optimization 407
David L. Hayes, Samuel J. Asirvatham, Paul A. Friedman

10 Troubleshooting: Interpreting Diagnostic Information to Ensure Appropriate Function 427
Charles D. Swerdlow, Paul A. Friedman, Samuel J. Asirvatham, David L. Hayes

11 Radiography of Implantable Devices 553
David L. Hayes, Paul A. Friedman, Samuel J. Asirvatham

12 Electromagnetic Interference: Sources, Recognition, and Management 591
David L. Hayes, Paul A. Friedman, Samuel J. Asirvatham

13 Follow-up 613
David L. Hayes, Niloufar Tabatabaei, Michael Glikson, Samuel J. Asirvatham, Paul A. Friedman

Ordering:
Order Online - http://www.researchandmarkets.com/reports/2223475/
Order by Fax - using the form below
Order by Post - print the order form below and send to
Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Cardiac Pacing, Defibrillation and Resynchronization. A Clinical Approach. 3rd Edition
Web Address: http://www.researchandmarkets.com/reports/2223475/
Office Code: SCD23GNL

Product Format
Please select the product format and quantity you require:

<table>
<thead>
<tr>
<th>Quantity</th>
<th>USD 96 + USD 29 Shipping/Handling</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hard Copy (Hard Back)</td>
<td></td>
</tr>
</tbody>
</table>

* Shipping/Handling is only charged once per order.
