Shellfish Aquaculture and the Environment

Description: Shellfish Aquaculture and the Environment is the first book to focus primarily on the issues surrounding environmental sustainability of shellfish aquaculture. Environmental sustainability is of increasing importance to industry personnel and consumers, and is one of the key issues that underpin the continued growth of the aquaculture industry. This timely and essential reference provides readers with a single source reference on this important issue.

Shellfish Aquaculture and the Environment provides readers with the most current data available on key topics, such as resource enhancement, habitat restoration, eutrophication, the impacts of shellfish farms on water quality, and harvest methods. The authors also discuss shellfish aquaculture and the environment from both industry and agency perspectives. The book also provides invaluable information for those looking to develop and implement environmental best management practices.

Edited by one of the world’s leading shellfish researchers and with a global team of contributors, Shellfish Aquaculture and the Environment will be the definitive source of information for this increasingly important topic.

Contents:

List of Contributors xi

Foreword xiii

Preface xv

1 The role of shellfish farms in provision of ecosystem goods and services 3
   João G. Ferreira, Anthony J.S. Hawkins, and Suzanne B. Bricker

   Introduction 3

   Methods of study 6

   Ecosystem goods: biomass production 13

   Ecosystem services: environmental quality 17

   Literature cited 26

2 Shellfish aquaculture and the environment: an industry perspective 33
   William Dewey, Jonathan P. Davis, and Daniel C. Cheney

   Introduction 33

   Shellfish farmers and harvesters history of water quality

   protection and stewardship roles 35

   BMPs, the shellfish industry, and the role of available research 42

   Conclusion 48

   Literature cited 48

3 Molluscan shellfish aquaculture and best management practices 51
   John A. Hargreaves

   Introduction 51
Ecosystem change and shellfish aquaculture 53
Classification of impacts 53
BMPs 54
Assurance labeling 64
Pressures to participate in certification programs 65
Perspectives on ecolabeling 67
Aquaculture certification programs 68
Critique of bivalve shellfish ecolabeling efforts in the United States 70
Criticisms of certification programs 73
Towards more meaningful labeling 75
Concluding remarks 77

Literature cited 78

4 Bivalve filter feeding: variability and limits of the aquaculture biofilter 81
Peter J. Cranford, J. Evan Ward, and Sandra E. Shumway

Introduction 81
Constraints on maximum feeding activity 82
Shellfish feeding in nature 85
Emerging knowledge on ecosystem interactions with the bivalve biofilter 109
Conclusions 111

Literature cited 113

5 Trophic interactions between phytoplankton and bivalve aquaculture 125
Gary H. Wikfors

The interdependence of bivalves and phytoplankton 125
Bivalve population density: farmed bivalves are naturally gregarious 127
Bivalves as consumers and cultivators of phytoplankton 127
Summary and prospects 130

Acknowledgments 131

Literature cited 131

6 The application of dynamic modeling to prediction of production carrying capacity in shellfish farming 135
Jon Grant and Ramón Filgueira

Physical oceanographic models 139
Filtration and seston depletion 140
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Shellfish Aquaculture and the Environment
Web Address: http://www.researchandmarkets.com/reports/2223653/
Office Code: SCD2YAVK

Product Format
Please select the product format and quantity you require:

Quantity
Hard Copy (Hard Back): ☐ USD 209 + USD 29 Shipping/Handling

* Shipping/Handling is only charged once per order.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title: Mr ☐ Mrs ☐ Dr ☐ Miss ☐ Ms ☐ Prof ☐
