Blackwell's Five-Minute Veterinary Consult Clinical Companion. Small Animal Toxicology

Description: This exciting new addition to the popular Blackwell's Five-Minute Veterinary Consult series presents essential information on the diagnosis, therapy, and prevention of important toxicoses. Using a succinct and accessible format, the book is organized by major categories of toxicants to aid in rapid differential diagnosis for suspected poisonings. All information is organized alphabetically for ease of use, while accompanying color photos aid in identification. The book's quick-access, clinically-oriented presentation of vital information makes it an ideal guide to handling toxicoses in veterinary practice.

The book begins with introductory chapters on decontamination, emergency and supportive therapy, antidotes, and principles of diagnosis. Designed to help you quickly develop a differential diagnosis list; confirm the diagnosis; and manage therapeutic options in poisonings, Blackwell's Five-Minute Veterinary Consult Clinical Companion: Small Animal Toxicology is an invaluable resource for veterinary practitioners and students.
