Models and Frameworks for Implementing Evidence-Based Practice. Linking Evidence to Action. Evidence Based Nursing

Description: The Evidence-Based Nursing Series is co-published with Sigma Theta Tau International (STTI). The series focuses on implementing evidence-based practice in nursing and mirrors the remit of Worldviews on Evidence-Based Nursing, encompassing clinical practice, administration, research and public policy.

Models and Frameworks for Implementing Evidence-Based Practice: Linking Evidence to Action looks at ways of implementing evidence gained through research and factors that influence successful implementation. It acknowledges the gap that exists between obtaining evidence and the practicalities of putting it into practice and provides direction to help to close this gap. This, the first book in the series, helps the reader to make decisions about the appropriateness of using various models and frameworks. A selection of models and frameworks are examined in detail including examples of their use in practice. The book concludes with an analysis and synthesis of the included models and frameworks.

The models and frameworks that have been included are based on a number of criteria: that they are internationally recognised, have undergone widespread evaluation and testing, are transferable across different settings, and can be used by different disciplines. Models and frameworks include:

- Stetler Model
- Ottawa Model of Research Use
- IOWA model of evidence-based practice
- Advancing Research and Clinical Practice through Close Collaboration (ARCC) model
- Dobbins' dissemination and use of research evidence for policy and practice framework
- Joanna Briggs Institute model
- Knowledge to Action framework
- Promoting Action on Research Implementation in Health Services (PARIHS)

Key Points:

- Includes an overview of implementation issues and the use of theory and frameworks in implementing evidence into practice
- Chapters are written by the developers of the model or framework
- Each chapter provides background on an implementation model or framework, suitable applications, underlying theory and examples of use
- Each chapter examines strengths and weaknesses of each model alongside barriers and facilitators for its implementation

Contents:

Notes on Contributors ix

Foreword by Huw Davis xiv

Preface xvii

1 Evidence-based practice: doing the right thing for patients 1
   Tracey Bucknall and Jo Rycroft-Malone

   Introduction 1

   What is evidence-based practice? 2

   What does implementation of evidence into practice mean? 5

   Attributes influencing successful implementation 9

   Why this book? 14
References 18

2 Theory, frameworks, and models: laying down the groundwork 23
Jo Rycroft-Malone and Tracey Bucknall

Introduction 23

Theory informed evidence-based practice 23
Using theory and frameworks for implementing evidence-based practice 30
Models and frameworks 39
Models and frameworks included in this book 44
Summary 47
References 47

3 Stetler model 51
Cheryl B. Stetler

Introduction and purpose of the model 51
Background and context 56
Intended audience and actual users of the model 61
Hypotheses and propositions 64
Use and related evaluation of the Stetler model 64
Perceived strengths and weaknesses of the model 72
Information on barriers and facilitators to implementing the model 74
The future 76
Summary 76
References 77

4 The Ottawa Model of Research Use 83
Jo Logan and Ian D. Graham

Purpose and assumptions 84
Background and context 84
Intended audience/users 97
Hypotheses and research possibilities 97
Critique (strengths and limitations of OMRU) 98
Future possibilities 100
Conclusion 101
Summary: How the model can be used/applied 101
References 102
Future plans for framework modifications 161
Summary: How the model can be used/applied 161
References 163

8 ARCC (Advancing Research and Clinical practice through close Collaboration): a model for system-wide implementation and sustainability of evidence-based practice 169
Bernadette Mazurek Melnyk and Ellen Fineout-Overholt
Purpose of and assumptions in the ARCC model 170
Background to the ARCC model 171
Intended users 177
Hypotheses generated from the ARCC model 177
Use and implementation of the ARCC model
and implications for future research 179
Critique (strengths and weaknesses) of the ARCC model 181
Summary: How the model can be used/applied 182
References 182

9 The Joanna Briggs Institute model of evidence-based health care as a framework for implementing evidence 185
Alan Pearson
Purpose and assumptions 186
Background to the JBI model’s development 186
Intended users of the model 192
Hypotheses and propositions 193
Others’ use of the JBI model for implementing evidence 198
Critique (strengths and weaknesses) of the JBI model for implementing evidence 200
Future plans 201
Summary: How the model can be used/applied 202
References 203

10 The Knowledge To Action framework 207
Ian D Graham and Jacqueline M Tetroe
Purpose of the framework 208
Background and context 210
Framework description 212
Intended audiences/users 215
Hypotheses and research possibilities – Has the framework generated hypotheses or propositions that the
developers and others can and/or have been testing? 215
Evaluation and use of the KTA framework 216
Strengths and limitations 217
Future plans for the development of the framework 218
Summary: How the model can be used/applied 218
References 219

11 Analysis and synthesis of models and frameworks 223
Jo Rycroft-Malone and Tracey Bucknall

Background 223
Synthesis 226
Conclusion 244
References 244

12 Summary and concluding comments 247
Jo Rycroft-Malone and Tracey Bucknall

A note about implementation 247
A note about impact 250
Applying models and frameworks to guide implementation 251
Concluding remarks 255
References 257
Appendix 259

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
