Description:
Synopsis
This report provides analysis on competitive benchmarking along with top companies active across the Norway defense industry. It features insights into the recent activity and strategic initiatives of key public sector companies that support the industry. The information is divided into sections such as company overview, products and services and alliances, to give the reader an understanding of the business environment in which the defense industry operates.

Summary
SDI's "The Norway Defense Industry - Competitive Landscape and Strategic Insights to 2017: Market Profile" is an essential source of information covering the top companies of the defense industry in Norway.

Although the Norwegian defense industry is smaller than those of major European arms supplying countries, such as Germany, France, and Italy, it is well developed in certain areas. The country's core competencies lie in missile technology, weapon sensor systems, ammunition, military explosives, information and communication technologies, system integration, underwater technology, and sensors and simulation technology.

Reasons To Buy
"The Norway Defense Industry - Competitive Landscape and Strategic Insights to 2017: Market Profile" allows you to:
