Foodomics. Advanced Mass Spectrometry in Modern Food Science and Nutrition. Wiley Series on Mass Spectrometry

Description: Provides the latest "–omics" tools to advance the study of food and nutrition

The rapidly emerging field of foodomics examines food and nutrition by applying advanced "–omics" technologies in order to improve people's health, well-being, and knowledge. Using tools from genomics, transcriptomics, epigenomics, proteomics, and metabolomics, foodomics offers researchers new analytical approaches to solve a myriad of current challenges in food and nutrition science.

This book presents the fundamentals of foodomics, exploring the use of advanced mass spectrometry techniques in food science and nutrition in the post-genomic era. The first chapter of the book offers an overview of foodomics principles and applications. Next, the book covers:

- Modern instruments and methods of proteomics, including the study and characterization of food quality, antioxidant food supplements, and food allergens
- Advanced mass spectrometry–based methods to study transgenic foods and the microbial metabolome
- Mass spectrometry–based metabolomics in nutrition and health research
- Foodomics' impact on our current understanding of micronutrients (phenolic compounds and folates), optimal nutrition, and personalized nutrition and diet related diseases
- Principles and practices of lipidomics and green foodomics
- Use of chemometrics in mass spectrometry and foodomics

The final chapter of Foodomics explores the potential of systems biology approaches in food and nutrition research. All the chapters conclude with references to the primary literature, enabling readers to explore individual topics in greater depth.

With contributions from a team of leading pioneers in foodomics, this book enables students and professionals in food science and nutrition to take advantage of the latest tools to advance their research and open up new areas of food and nutrition investigation.

Contents: Preface xiii

Contributors xv

1 Foodomics: Principles and Applications 1
Alejandro Cifuentes

1.1 Introduction to Foodomics 1

1.2 Foodomics Applications: Challenges, Advantages, and Drawbacks 6

1.3 Foodomics, Systems Biology, and Future Trends 11

Acknowledgments 12

References 12

2 Next Generation Instruments and Methods for Proteomics 15
María del Carmen Mena and Juan Pablo Albar

2.1 Introduction 15

2.2 Emerging Methods in Proteomics 19

2.3 The Move from Shotgun to Targeted Proteomics Approaches 34
13.1 Folates in the Diet 381
13.2 Folate and Human Health 383
13.3 Measuring Folates in Human Biomonitoring 385
13.5 Folate Deficiency and Abnormal DNA Methylation: A Common Mechanism Linking Cancer and Atherosclerosis 394
13.6 Summary 397
Acknowledgments 399
References 399

14 Metabolomics Markers in Acute and Endurance/Resistance Physical Activity: Effect of the Diet 405
Sonia Medina, Debora Villano, Jose Ignacio Gil, Cristina García-Viguera, Federico Ferreres, and Angel Gil-Izquierdo
14.1 Introduction 405
14.2 Metabolomics Consequences of Physical Activity: Metabolites and Physiological Pathways Affected 407
14.3 Metabolomics and Physical Activity: Effect of the Diet 410
14.4 Concluding Remarks and Future Perspectives 411
Acknowledgments 412
References 412

15 MS–Based Omics Evaluation of Phenolic Compounds as Functional Ingredients 415
Debora Villano, Sonia Medina, Jose Ignacio Gil, Cristina García-Viguera, Federico Ferreres, Francisco A. Tomas-Barberan, and Angel Gil-Izquierdo
15.1 Introduction 415
15.2 Use of Metabolomics in Nutritional Trials 416
15.3 Statistic Tools in Nutritional Metabolomics 421
15.4 Metabolomics from Clinical Trials after Intake of Polyphenol–Rich Foods 421
15.5 Human Metabolome in Low and Normal Polyphenol Dietary Intake 424
15.6 Concluding Remarks and Future Perspectives 424
Acknowledgments 425
References 425

16 Metabolomics of Diet–Related Diseases 429
Marcela A. Erazo, Antonia García, Francisco J. Ruperez, and Coral Barbas
16.1 Introduction 429
16.2 Analysis of the Metabolome: Metabolomics 431
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Foodomics. Advanced Mass Spectrometry in Modern Food Science and Nutrition. Wiley Series on Mass Spectrometry
Web Address: http://www.researchandmarkets.com/reports/2330202/
Office Code: SCDKUQIG

Product Format
Please select the product format and quantity you require:

Quantity
Hard Copy (Hard Back): □ USD 131 + USD 29 Shipping/Handling

* Shipping/Handling is only charged once per order.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title: □ Mr □ Mrs □ Dr □ Miss □ Ms □ Prof
First Name: ___________________________ Last Name: ___________________________

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
