China Kanghui Holdings (KH) - Product Pipeline Analysis

Description:

Summary

China Kanghui Holdings (China Kanghui) is a holding company. It develops, manufactures and markets orthopedic implants in China. The company's product portfolio consist of around 36 product series of orthopedic implants and related instruments for spine and trauma indications. Its trauma products include nails, plates and screws, cranial maxillo facial plate and screw systems, which are used in the surgical treatment of bone fractures. The spine products include screws, meshes, inter body cages and fixation systems, which are used in the surgical treatment of spine disorders. It markets under through two brands, namely, Kanghui and Libeier across Asia, Europe, Africa, South America and Australia. The company operates through Changzhou Kanghui Medical Innovation Co., Ltd. China Kanghui is headquartered in Changzhou, Jiangsu, China.

The company streamlines its research efforts with corporate development activities with an intend to expand product portfolio as recently it invested $ 4m in Consensus Orthopedics.

This report is a source for data, analysis and actionable intelligence on the China Kanghui Holdings portfolio of pipeline products. The report provides detailed analysis on each pipeline product with information on the indication, the development stage, trial phase, product milestones, pipeline territory, estimated approval date, and estimated launch date.

Each pipeline product is profiled to cover information on product description, function, technology, indication, and application. The report is also supplemented with a detailed company profile and information on clinical trials, wherever applicable.

This report is built using data and information sourced from proprietary databases, primary and secondary research and in-house analysis by Our team of industry experts.

Scope

- Detailed company profile with information on business description, key company facts, major products and services, key competitors, key employees, locations and subsidiaries and recent developments.
- Detailed coverage on all the pipeline products, by equipment type, by therapy area, by development stage, and by trial phase.
- Information on product milestones and pipeline territory for each product, the estimated approval date, and estimated launch date.
- Profile of each pipeline product with additional information on product description, function, technology, indication(s), and application.
- Data on relevant clinical trials and product patent details, wherever applicable.
- Information on clinical trial, wherever applicable, is supplemented with information on trial phase, trial status, trial objective, trial design, target patients, unique physician identifier, primary point, secondary point, acronym, participants inclusion, participants exclusion, interventions, trial results, trial start date, trial end date, study type, trial site, trial funding, age eligibility, and gender eligibility.

Reasons to Buy

- Develop business strategies by understanding the trends and developments driving the medical devices pipeline and technology landscape globally.
- Design and develop your product development, marketing and sales strategies.
- Exploit M&A opportunities by identifying market players with the most innovative pipeline.
- Develop market-entry and market expansion strategies.
- Exploit in-licensing and out-licensing opportunities by identifying products, most likely to ensure a robust return.
- Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.
- Develop competition strategies by identifying the status and likely launch of your competitors' pipeline products through review of the clinical trials, stage and phase of development, etc. Which are the next high-
value products that your competitor would add in its portfolio? – identify, understand and capitalize.
