
Description: This is the seventh major, in-depth international research program studying supervisory control and data acquisition (SCADA) systems, energy management systems (EMS), and distribution management systems (DMS) during the first and second quarters of 2005. This five volume series will measure current market sizes and offer projections, on a world region basis, through the year 2007.

This new series will provide an appraisal of central and remote site hardware and applications software requirements that electric utilities will be requesting during their next round of procurements for these systems during the forecast period. The research program will focus on defining the broader product and market requirements that suppliers must meet in order to successfully participate in the SCADA/EMS/DMS programs within the electric utility community worldwide. The world regions in this research program include the North American, European, Latin American, Mideast, Mediterranean, African and Asia Pacific markets.

This report is available in Cd-Rom, Hard Copy and Single user Licence formats.

It consists of 4 separate volumes:

Volume 1: North American Markets
Volume 2: International Markets
Volume 3: World Market Assessment
Volume 4: Supplier Profiles.

If you would like to enquire about purchasing these volumes separately please click on Enquire before buying

Publication of the series will begin in third quarter 2005
and the Table of Contents shown is subject to change.

Contents: The World Market Study of SCADA,
Energy Management Systems and
Distribution Management Systems in Electric Utilities:

Volume I – North American Market
June

Table of Contents
Section 1 Introduction

Section 2 Foreword

Section 3 Narrative & Charts

Survey Question
1 Extent of Current Use of EMS, SCADA and DMS Systems 3-1

2 Plans for Procurement of New and Replacement SCADA, DMS and EMS Systems during this period 3-4

2A Forecast of EMS-Related Spending by North American Electric Utilities 3-5

2B Forecast of SCADA-Related Spending by North American Electric Utilities 3-6

3 Current/Planned Use of a Separate OMS or GMS by Year-End 3-8

4 Utility Requirements for Warranty and Service Agreements for EMS/SCADA/DMS 3-11

4A Level of Importance of Supplier User Groups for Utility's Next EMS/SCADA/DMS Procurement 3-11

5 Number of RTUs, PLCs, Bay and Substation Controllers Installed and Planned for Use in Conjunction with EMS/SCADA and DMS Systems 3-15

6 Current Linkages and Plans for Additional Links between EMS, SCADA and DMS Systems to Other Systems 3-16

Table of Contents (Continued)

7 Suppliers Most Likely to be Considered for EMS, SCADA and DMS Purchases 3-18
7A EMS/SCADA/DMS Vendors which Best Provide Specific Services 3-26

8 Choices of Operating Systems that are Acceptable to Responding Utilities 3-37

9 Current and Planned Usage of CPU Platforms 3-39

10 Current and Planned Use of Protocols within the Substation and from the Substation to External Hosts/Networks 3-41

11 Communications Protocols Used and Planned for Use with RTO/ISO Systems 3-44

12 System Changes Required by ISO/RTO Organizations to Enable Several Specific Actions 3-46

13 Use of External Assistance or Third Party Services Needed by Respondents for DMS/DA Activities 3-49

14 Types of Functions Currently Implemented and Planned to be Implemented Using Internet and Intranet Technologies 3-51

15 Approaches Used for Reducing Vulnerability on T&D Operations Networks 3-54

15A Utility Participation with Ongoing Cyber Security Initiatives 3-56

16 Current Use/Future Plans for Use of SCADA, DMS, EMS, and Distribution Analysis Functions and Applications 3-58

18 Mentions of New Tools, Applications and Services that Utilities Would Like to See Available for Suppliers 3-68
Section 4 Statistical Analysis

Survey Question

1 Status of Current/Planned Use of EMS, SCADA and DMS 4-1

Table of Contents (Continued)

1A Listings of Mentioned EMS/SCADA/DM Systems
Summary by Utility 4-3
Summary by Vendor 4-11

2 Plans for Additions/Replacements/Upgrades for SCADA, DMS and EMS Systems during this period 4-19

3 Current/Planned Use of a Separate OMS by Year-End 4-23

3A Current/Planned Use of a Separate GMS by Year-End 4-25

4 Utility Requirements for Warranty and Service Agreements for EMS/SCADA/DMS 4-27

4A Level of Importance of Supplier User Groups for Utility's Next EMS/SCADA/DMS Procurement 4-31

5 Summary Information on RTUs, PLCs, Bay Controllers, and Substation Controllers Current/Planned on EMS/SCADA and DMS Systems 4-33

Poletop RTUs 4-36
Substation RTUs 4-39
Substation PLCs 4-45
Bay Controllers and Substation Controllers 4-47

6 Current/Future Plans for connecting EMS, SCADA and DMS Systems to Other Systems 4-51
7 Suppliers Most Likely to be Considered for
  EMS Purchases  4-59
  SCADA Purchases  4-61
  DMS Purchases  4-63

7A EMS/SCADA/DMS Vendors which Best Provide
  Specific Services  4-65

8 Choices of Operating Systems that are Acceptable to
  Responding Utilities  4-69

9 Current and Planned Usage of CPU Platforms  4-71

10 Choice of Protocol within the Substation
  and from the Substation to External Hosts/Networks  4-73

11 Communications Protocols Used and Planned for Use
  with RTO/ISO Systems  4-81

Table of Contents (Continued)

12 System Changes Required by ISO/RTO Organizations to
  Enable Several Specific Actions  4-83

12A Requirement to Electronically Submit Utility's
  Power System Data Model to ISO/RTO  4-85

13 Use of External Assistance or Third Party Services Needed by
  Respondents for DMS/DA Activities  4-87

14 Types of Functions Currently Implemented and Planned to be Implemented
  Using Internet and Intranet Technologies  4-93

15 Approaches Used for Reducing Vulnerability on T&D
  Operations Networks  4-99

15A Utility Participation with Ongoing Cyber Security Initiatives  4-101
16 Current Use/Future Plans for Use of
SCADA Functions and Applications       4-109
DMS Functions and Applications         4-115
EMS Functions and Applications         4-121
Distribution Analysis Functions and Applications   4-127

17 Current/Future Plans for Investing in Operations Systems Designed to
Meet Specific Issues in Light of Changing Regulatory Requirements for
Distribution Network Operators          4-133

18 Mentions of New Tools, Applications and Services that Utilities
Would Like to See Available for Suppliers   4-137

Section 5 Survey Respondents

The World Market Study of SCADA,
Energy Management Systems and
Distribution Management Systems in Electric Utilities:
Volume II – International Market

Section 2 Narrative & Charts

Question

1 Extent of Current Use of EMS, SCADA and DMS Systems       2-1

2 Plans for Procurement of New and Replacement SCADA,
DMS and EMS Systems during 2003-2005   2-4
2A Forecast Value of Awards for EMS/SCADA/DMS and Energy Trading Systems and Software in International Electric Utilities 2-5

2B Forecast Value of Awards for EMS/SCADA/DMS and Energy Trading Systems and Software - Geographic Basis 2-6

3 Current/Planned Use of a Separate OMS or GMS by Year-End 2005 2-7

4 Utility Requirements for Warranty and Service Agreements for EMS/SCADA/DMS 2-10

4A Level of Importance of Supplier User Groups for Utility's Next EMS/SCADA/DMS Procurement 2-10

5 Number of RTUs, PLCs, Bay and Substation Controllers Installed and Planned for Use in Conjunction with EMS/SCADA and DMS Systems 2-14

6 Current Linkages and Plans for Additional Links between EMS, SCADA and DMS Systems to Other Systems 2-15

7 Suppliers Most Likely to be Considered for EMS, SCADA and DMS Purchases 2-17

7A EMS/SCADA/DMS Vendors which Best Provide Specific Services 2-22

Table of Contents (continued)

8 Choices of Operating Systems that are Acceptable to Responding Utilities 2-28

9 Current and Planned Usage of CPU Platforms 2-30

10 Current and Planned Use of Protocols within the Substation and from the Substation to External Hosts/Networks 2-32
11 Use of External Assistance or Third Party Services Needed by Respondents for DMS/DA Activities 2-35

12 Types of Functions Currently Implemented and Planned to be Implemented Using Internet and Intranet Technologies 2-37

13 Approaches Used for Reducing Vulnerability on T&D Operations Networks 2-39

13A Utility Participation with Ongoing Cyber Security Initiatives 2-41

15 Mentions of New Tools, Applications and Services that Utilities Would Like to See Available for Suppliers 2-45

Section 3 Statistical Analysis

Section 4 Russian Survey Results

Section 5 Survey Participants

Volume III – World Market Assessment and Forecast October

Table of Contents

Section 1 Introduction
Section 2 World Market Assessment and Forecast and World Regional Markets for EMS, SCADA and DMS

Specific World Markets are in Sections 3 through 7

Section 3 North America

Section 4 Europe (East, West and Central)

Section 5 Latin America (Central and South)

Section 6 Mid-East, Mediterranean and Africa

Section 7 Asia Pacific and South Asia

Section 8 Market for Substation RTUs and PLCs by World Region

Volume IV—Supplier Profiles

November

Table of Contents

page

ABB 1
Advanced Control Systems 4
Alstom EMM 6
Alstom T&D Energy Automation & Information Business 8
C3-ilex 10
Cannon Technologies 12

Ordering:
Order Online - http://www.researchandmarkets.com/reports/245770/
Order by Fax - using the form below
Order by Post - print the order form below and send to
Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct and select the format(s) you require.

Web Address: http://www.researchandmarkets.com/reports/245770/
Office Code: SCDK113F

Product Formats

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:

Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:

Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
