Practical Text Mining and Statistical Analysis for Non-structured Text Data Applications

Description: Practical Text Mining and Statistical Analysis for Non-structured Text Data Applications brings together all the information, tools and methods a professional will need to efficiently use text mining applications and statistical analysis.

Winner of a 2012 PROSE Award in Computing and Information Sciences from the Association of American Publishers, this book presents a comprehensive how-to reference that shows the user how to conduct text mining and statistically analyze results. In addition to providing an in-depth examination of core text mining and link detection tools, methods and operations, the book examines advanced preprocessing techniques, knowledge representation considerations, and visualization approaches. Finally, the book explores current real-world, mission-critical applications of text mining and link detection using real world example tutorials in such varied fields as corporate, finance, business intelligence, genomics research, and counterterrorism activities.

The world contains an unimaginably vast amount of digital information which is getting ever vaster ever more rapidly. This makes it possible to do many things that previously could not be done: spot business trends, prevent diseases, combat crime and so on. Managed well, the textual data can be used to unlock new sources of economic value, provide fresh insights into science and hold governments to account. As the Internet expands and our natural capacity to process the unstructured text that it contains diminishes, the value of text mining for information retrieval and search will increase dramatically.

-Extensive case studies, most in a tutorial format, allow the reader to 'click through' the example using a software program, thus learning to conduct text mining analyses in the most rapid manner of learning possible

-Numerous examples, tutorials, power points and datasets available via companion website on Elsevierdirect.com

-Glossary of text mining terms provided in the appendix

Freshmen Using Text Analytics S. Searching for Relationships in Product Recall Data from the Consumer
Product Safety Commission with STATISTICA Text Miner T. Potential Problems That Can Arise in Text Mining:
Example Using NALL Aviation Data U. Exploring the Unabomber Manifesto Using Text Miner V. Text Mining
PubMed: Extracting Publications on Genes and Genetic Markers Associated with Migraine Headaches from
PubMed Abstracts W. CASE STUDY: The Problem with the Use of Medical Abbreviations by Physicians and
Health Care Providers X. Classifying Documents with Respect to “Earnings? and Then Making a Predictive
Model for the Target Variable Using Decision Trees, MARSplines, Naïve Bayes Classifier, and K-Nearest
Neighbors with STATISTICA Text Miner Y. CASE STUDY: Predicting Exposure of Social Messages: The Bin
Laden Live Tweeter Z. The InFLUence Model: Web Crawling, Text Mining, and Predictive Analysis with
2010e2011 Influenza Guideline

Clustering Words and Documents 14. Leveraging Text Mining in Property and Casualty Insurance 15.

HOW TO USE THE DATA SETS AND THE TEXT MINING SOFTWARE ON THE DVD OR ON LINKS FOR PRACTICAL
TEXT MINING

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Practical Text Mining and Statistical Analysis for Non-structured Text Data Applications
Web Address: http://www.researchandmarkets.com/reports/2485181/
Office Code: SCDVVBK6

Product Format
Please select the product format and quantity you require:

<table>
<thead>
<tr>
<th>Quantity</th>
<th>Hard Copy (Hard Back):</th>
<th>USD 69 + USD 28 Shipping/Handling</th>
</tr>
</thead>
</table>

* Shipping/Handling is only charged once per order.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title: Mr [ ] Mrs [ ] Dr [ ] Miss [ ] Ms [ ] Prof [ ]
First Name: ___________________________ Last Name: ___________________________
Email Address: * ___________________________
Job Title: ___________________________
Organisation: ___________________________
Address: ___________________________
City: ___________________________
Postal / Zip Code: ___________________________
Country: ___________________________
Phone Number: ___________________________
Fax Number: ___________________________

* Please refrain from using free email accounts when ordering (e.g. Yahoo, Hotmail, AOL)
Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box:

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
