Mathematical Models for Society and Biology. Edition No. 2

Description: Mathematical Models for Society and Biology, 2e, is a useful resource for researchers, graduate students, and post-docs in the applied mathematics and life science fields. Mathematical modeling is one of the major subfields of mathematical biology. A mathematical model may be used to help explain a system, to study the effects of different components, and to make predictions about behavior.

Mathematical Models for Society and Biology, 2e, draws on current issues to engagingly relate how to use mathematics to gain insight into problems in biology and contemporary society. For this new edition, author Edward Beltrami uses mathematical models that are simple, transparent, and verifiable. Also new to this edition is an introduction to mathematical notions that every quantitative scientist in the biological and social sciences should know. Additionally, each chapter now includes a detailed discussion on how to formulate a reasonable model to gain insight into the specific question that has been introduced.

- Offers 40% more content - 5 new chapters in addition to revisions to existing chapters
- Accessible for quick self study as well as a resource for courses in molecular biology, biochemistry, embryology and cell biology, medicine, ecology and evolution, bio-mathematics, and applied math in general
- Features expanded appendices with an extensive list of references, solutions to selected exercises in the book, and further discussion of various mathematical methods introduced in the book

Contents:  

PREFACE

1 Crabs and Criminals
2 It Isn't Fair
3. While the City Burns
4. Clean Streets
5. A Bayesian Take on Colorectal Screening, Baseball, Fund Managers, and a Murder
6. What Are the Odds of That?
7 It's Normal Not to Be Normal
8. Boom and Bust
9. Viral Outbreaks and Blood Clots
10. Red Tides and What Ever Happened to the Red Squirrel?
11. Spatial Patterns: The Cat's Tail and Spreading Slime
12. The Coil of Life

Afterthoughts on Modeling

Appendix A: The Normal Density
Appendix B: Poisson Events
Appendix C: Nonlinear Equations and Oscillations
Appendix D: Conditional Expectation
Ordering:

Order Online - [http://www.researchandmarkets.com/reports/2496404/](http://www.researchandmarkets.com/reports/2496404/)

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit
http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Mathematical Models for Society and Biology. Edition No. 2
Web Address: http://www.researchandmarkets.com/reports/2496404/
Office Code: SCDKT458

Product Format
Please select the product format and quantity you require:

| Quantity            | Hard Copy (Hard Back) | USD 89 + USD 29 Shipping/Handling |

* Shipping/Handling is only charged once per order.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title: Mr □ Mrs □ Dr □ Miss □ Ms □ Prof □
First Name: __________________________ Last Name: __________________________

* Please refrain from using free email accounts when ordering (e.g. Yahoo, Hotmail, AOL)
Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
