Overview of the 2011-2012 U.S. Transmission and Distribution Equipment Market – Control Systems Series

Description:
The Market Summary Series of more than 80 T&D and related automation report topics provides an effective, low-cost approach for management to quickly obtain an assessment and overview of key attributes of each industry segment, including 2011 estimates of U.S. market size for utilities (by type) and for industrials; key players, and the near-term outlook for the segment.

These very brief report summaries are 2-5 pages each and provide highlighted facts and figures on major market participants and their products, market share, pricing information, market sizing and a forecast of U.S. revenue through 2014. The reports in the Overview series are perfect for business development managers, investors and energy market researchers who want a snapshot of the U.S. market for products in the Control Systems area.

Each report includes definitions of what is included in the segment, lists of market participants and their estimated 2011 revenue, a market share assessment (pie chart), 2011 market size range estimates, history and outlook of estimated spending changes.

Contents:
CS01 – Energy Management Systems (EMS) Integration
CS02 – Distribution SCADA
CS03 – Geographic Information Systems
CS04 – Customer Information Systems
CS05 – Outage Management Systems
CS06 – Meter Data Management Systems
CS07 – Mobile Workforce Management Systems
