Markov Processes for Stochastic Modeling. Edition No. 2

Description: Markov processes are processes that have limited memory. In particular, their dependence on the past is only through the previous state. They are used to model the behavior of many systems including communications systems, transportation networks, image segmentation and analysis, biological systems and DNA sequence analysis, random atomic motion and diffusion in physics, social mobility, population studies, epidemiology, animal and insect migration, queueing systems, resource management, dams, financial engineering, actuarial science, and decision systems.

Covering a wide range of areas of application of Markov processes, this second edition is revised to highlight the most important aspects as well as the most recent trends and applications of Markov processes. The author spent over 16 years in the industry before returning to academia, and he has applied many of the principles covered in this book in multiple research projects. Therefore, this is an applications-oriented book that also includes enough theory to provide a solid ground in the subject for the reader.

- Presents both the theory and applications of the different aspects of Markov processes
- Includes numerous solved examples as well as detailed diagrams that make it easier to understand the principle being presented
- Discusses different applications of hidden Markov models, such as DNA sequence analysis and speech analysis.

Contents:

Chapter 1: Basic Concepts
Chapter 2: Introduction to Markov Processes
Chapter 3: Discrete-Time Markov Chains
Chapter 4: Continuous-Time Markov Chains
Chapter 5: Markovian Queueing Systems
Chapter 6: Markov Renewal Processes
Chapter 7: Markovian Arrival Processes
Chapter 8: Random Walk
Chapter 9: Brownian Motion and Diffusion Processes
Chapter 10: Controlled Markov Processes
Chapter 11: Hidden Markov Models
Chapter 12: Markov Point Processes

Ordering:

Order Online - http://www.researchandmarkets.com/reports/2534679/

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Markov Processes for Stochastic Modeling. Edition No. 2
Web Address: http://www.researchandmarkets.com/reports/2534679/
Office Code: SCBRTYXH

Product Format
Please select the product format and quantity you require:

Quantity
Hard Copy (Hard Back): USD 88 + USD 29 Shipping/Handling

* Shipping/Handling is only charged once per order.

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
