Global Leaders in Islamic Finance. Industry Milestones and Reflections

Description:

Interviews with the professionals driving the rapid global growth of Islamic finance

Though the modern Islamic finance system has existed for more than forty years, its size and influence in the banking industry has expanded massively in just the last decade. This book looks at Islamic finance from the perspective of the experts shaping the industry, including some of the founders of the first Islamic banks—Haj Saeed Lootah, His Royal Highness Prince Mohamed Al Faisal Al Saud, and Sheikh Saleh Abdullah Kamel—as well as other professionals who have greatly influenced the industry. Editor Emmy Alim offers rare insight on Islamic finance with these insightful interviews focused on the development, rise, and future trajectory of Islamic finance.

- Features rare insider perspective on the rise of Islamic finance with interviews from the top names in the industry in Asia, the Middle East, Europe, and the United States
- An ideal resource for bankers and finance professionals working in traditional finance as well as Islamic finance
- Written by Emmy Alim, Editor for Thomson Reuters Islamic Finance Gateway, a multi-platform forum for experts and professionals in the Islamic finance industry
