Anatomy and Physiology of Domestic Animals. 2nd Edition

Description: Anatomy and Physiology of Domestic Animals, Second Edition offers a detailed introduction to the foundations of anatomy and physiology in a wide range of domestic species. Well illustrated throughout, the book provides in-depth information on the guiding principles of this key area of study for animal science students, fostering a thorough understanding of the complex make-up of domestic animals. This Second Edition includes access to supplementary material online, including images and tables available for download in PowerPoint, a test bank of questions for instructors, and self-study questions for students.

Taking a logical systems-based approach, this new edition is fully updated and now provides more practical information, with descriptions of anatomic or physiological events in pets or domestic animals to demonstrate everyday applications. Offering greater depth of information than other books in this area, Anatomy and Physiology of Domestic Animals is an invaluable textbook for animal science students and professionals in this area.

Key features

- Introduces the principles of anatomy and physiology of a wide range of domestic species
- Promotes a thorough understanding of the structure and function of each body system
- Presents colorful illustrations throughout to depict the structures described
- Offers new sections showing the everyday relevance of the principles discussed
- Includes supplementary materials online, including test banks, self-study questions, and the images in PowerPoint at <a href="company website

Contents:

Preface vii
Preface to the First Edition ix
About the Companion Website xi
Chapter 1. Introduction to Anatomy and Physiology 3
Chapter 2. The Cell: The Common Physiological Denominator 11
Chapter 3. Fundamental Biochemical Pathways and Processes in Cellular Physiology 57
Chapter 4. Tissue Structure and Organization 85
Chapter 5. Integumentary System 121
Chapter 6. Bones and Skeletal System 139
Chapter 7. Muscular Tissue 179
Chapter 8. Introduction to the Nervous System 215
Chapter 9. Central Nervous System 241
Chapter 10. Peripheral and Autonomic Nervous System 265
Chapter 11. Special Senses 297
Chapter 12. Endocrine System 323
Chapter 13. Cardiovascular System 375
