Technology for Working Capital Optimization

Description:

New Research Examines How Technology Is Facilitating Payments Discounting And Supply Chain Financing

Advancements in the technology for electronic accounts payable (EAP) solutions have come to the aid of companies looking to optimize their working capital.

This report examines how cash management is benefited by solutions in the market place that facilitate business-to-business payments. These solutions help companies optimize their working capital by providing technology that supports dynamic discounting and supply chain financing.

"The need for tight cash flow management and visibility into spending is critical to running a profitable business," comments Amy Hoke, author of the report. "Optimization of trading relationship contracts, payment terms, and speed of payment can yield a significant cash management benefit for buying and receivable organizations."

Highlights of the report include:

- Challenges companies face in making on-time payments
- Evolution of electronic accounts payable (EAP) technology
- Overview of dynamic discounting and supply chain financing (SCF)
- Key solution providers in the marketplace today offering dynamic discounting and SCF
- Recommendations on how to evaluate which solution is right for a buyer organization

Contents:
