The Market for BEMS & Enterprise Energy Management Systems 2013 to 2017

Description: This Report is the 2013 Definitive Resource for Building Energy Management Systems Market Research & Investment Analysis; combining Market Sizing Statistics with Analysis of Mergers, Acquisitions and Investments. It sets out with the objective to assess the size of BEMS and EEM, two seemingly separate markets, but in analyzing all the important factors that will shape these businesses in the next 5 years it concludes that they will be brought together if they are going to achieve customer value propositions.

This report reviews the growing business of interfacing the different technical services and the business enterprise in Smart Buildings to reduce the buildings operating costs and improve energy efficiency.

Its objective is to assess the potential size of this market and set out all the important factors that will shape the business in the next 5 years in the leading countries in the world. It is the “sister” report to our recently published study in our Smart Buildings portfolio “Smart Buildings: The Market for Connecting Smart Grid with BEMS 2013 to 2017”.
