Extracellular Glycolipids of Yeasts

Description: Extracellular Glycolipids of Yeasts: Biodiversity, Biochemistry, and Prospects provides a comprehensive view of the biochemistry, biological activity, and practical application of extracellular glycolipids of yeast. This book brings much-needed clarity to the complex topic of glycolipids and streamlines the rather confusing terminology used for glycolipids. It also provides a wealth of modern data on their composition, structure and properties, biosynthetic pathways, methods of isolation and identification, antifungal activity, and mechanisms of action.

Studies of extracellular glycolipids of yeast now draw the attention of researchers in life science and biotechnology due to numerous recently revealed biological properties of these compounds. These compounds are scientifically and practically promising in medicine and agriculture due to their biosurfactant and fungicidal properties, as well as a number of other biological activities. Extracellular Glycolipids of Yeasts gives researchers studying biochemistry of microorganisms and related biologically active compounds a much-needed guide to the basic data that will aid in these increasingly generative pursuits.

- Provides a clear overview of the basic data on yeast biosurfactants using a simple survey-style approach
- Delivers comprehensive view of biochemistry, biological activity, and practical application of yeasts to aid in their scientific and practical use
- Clarifies and simplifies the complex topic of glycolipids, and its often-confusing terminology

Contents:

Introduction
Chapter 1: Occurrence and structure of fungal extracellular glycolipids
1.1. Glycolipid secretion in eumycetes
1.2. The structures of extracellular glycolipids of eumycetes
1.2.1. Cellobiose lipids
1.2.2. Mannosylerythritol lipids, MELs
1.2.3. Sophorolipids
1.2.4. Rare extracellular fungal glycolipids
Chapter 2: Methods of study of extracellular glycolipids
2.1. The culture media and methods to increase the yield of extracellular glycolipids
2.2. Purification methods
2.3. Structure study by NRM-spectroscopy and mass-spectrometry
2.4. Methods for studying physical and chemical properties, antifungal and membrane-damaging activities
Chapter 3: Physical and chemical properties of extracellular glycolipids
3.1. Solubility
3.2. Stability
3.3. Molecular masses
3.4. Surface properties
3.5. Interaction with artificial membranes
Chapter 4: Biological activities of extracellular yeast glycolipids
4.1. Antifungal activity of cellobiose lipids
4.1.1. Discovery of antifungal activity of cellobiose lipids
4.1.2. Antifungal activities and structure peculiarities
4.2. Membrane damaging activity of cellobiose lipids
4.3. Biological activities of MELs and sophorolipids
Chapter 5: Biosynthesis and degradation of extracellular yeast glycolipids
5.1. Biosynthesis of cellobiose lipids
5.2. Biosynthesis of sophorolipids
5.3. Biosynthesis of MELs
5.4. Degradation of extracellular yeast glycolipids
Chapter 6: Applied prospects of cellobiose lipids, mannosylerythritol lipids, and sophorolipids
6.1. Membrane-damaging agents for research purposes
6.2. Prospects for medicine, environmental protection, agriculture and industry
6.3. Commercial products containing yeast extracellular glycolipids
7. Supplement: selected techniques of purification and assay of extracellular yeast glycolipids
7.1. Culture media
7.2. Chromatography
7.5. Fungicide activity assay
7.6. Membrane-damaging activity assay
8. References

Ordering:
Order Online - http://www.researchandmarkets.com/reports/2690418/
Order by Fax - using the form below
Order by Post - print the order form below and send to
Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit
http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Extracellular Glycolipids of Yeasts
Web Address: http://www.researchandmarkets.com/reports/2690418/
Office Code: SCBRR7Q5

Product Format
Please select the product format and quantity you require:

<table>
<thead>
<tr>
<th>Quantity</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hard Copy (Paper back):</td>
</tr>
</tbody>
</table>

* Shipping/Handling is only charged once per order.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title: Mr [ ] Mrs [ ] Dr [ ] Miss [ ] Ms [ ] Prof [ ]
First Name: __________________________ Last Name: __________________________
Email Address: * __________________________
Job Title: __________________________
Organisation: __________________________
Address: __________________________
City: __________________________
Postal / Zip Code: __________________________

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:

Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:

Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
