Teaching with Technology. Chandos Information Professional Series

Description: This practical book introduces readers to the current technology topics and issues facing today's academic instruction and reference librarians. The book provides up-to-date overviews of cutting edge technologies, offers an insight on current educational uses and applications of these new tools, and discusses common problems and pitfalls librarians may encounter when incorporating current technologies into their instruction services. Chapters are written by experienced practitioners, providing detailed information on best practices and common pitfalls using today's technologies. Topics include teaching with streaming video, chat-based virtual reference services, wireless networking, weblogs and course management software.

- Describes concrete applications of technology for today's academic library instruction programs
- Discusses the academic librarian's role as both educator and technology innovator
- Evaluates new technologies from an instructional (rather than a reference or access) services viewpoint

Contents:

Screen casting 101: Online video tutorials for library instruction
Blogs, wikis, RSS and podcasting: Web 2.0 tools for academic librarians and educators
Virtual reference and instruction
Mobile computing
Beyond the keyboard: optimising technology spaces for collaborative learning, instruction and service
Libraries in the course management systems learning environment
Academic librarians in the age of videoconferencing: Tools for teaching, collaboration and professional development
Conclusion.
