The Global Man-Portable Military Electronics Market 2013-2023 - Market Size and Drivers: Market Profile

Description: This report provides readers with a comprehensive analysis of the Man-Portable Military Electronics market through 2013-2023, including highlights of the demand drivers and growth stimulators for Man-Portable Military Electronics. It also provides an insight on the spending pattern and modernization pattern in different regions around the world.

Summary

The global man-portable military electronics market is estimated to value US$3.2 billion in 2013 and increase at a CAGR of 3.42% during the forecast period, to reach its peak of US$4.5 billion by 2023. This sector is characterized by an even spread of spending over all three segments: communications, ISTAR and force protection.

Reasons To Buy

"The Global Man-Portable Military Electronics Market 2013-2023 - Market Size and Drivers: Market Profile" allows you to:

- Gain insight into the Man-Portable Military Electronics market with current and forecast market values.
- Understand the key drivers and attractiveness parameters of the global Man-Portable Military Electronics market.
- Understand the various factors impacting the growth of the Man-Portable Military Electronics market.

Contents:

1 Introduction
1.1 What is this Report About?
1.2 Definitions
1.3 Summary Methodology
1.4 About Us
2 Global Man-Portable Military Electronics Market Size and Drivers
2.1 Man-Portable Military Electronics Market Size and Forecast 2013-2023
2.1.1 Global man-portable military electronics market to show positive growth during the forecast period
2.2 Global Man-Portable Military Electronics Market - Regional Analysis
2.2.1 North America dominates the global man-portable military electronics market
2.2.2 Demand for communication systems in the US to support the global man-portable military electronics market
2.2.3 Asia expected to be second largest contributor for military man portable electronics globally
2.2.4 Soldier Modernization programs to drive spending on man-portable electronics in Europe
2.2.5 Middle East to register nominal category decline during the forecast period
2.2.6 Brazil expected to be the highest spender in the man portable electronics sector in the Latin American region
2.2.7 African man-portable military electronics market expected to increase over the forecast period
2.3 Man Portable Electronics Sub-Sector Market Size Composition
2.3.1 Force Protection to record strong CAGR growth
2.3.2 Force protection to witness the highest amount of investment during the forecast period
2.3.3 Man portable ISTAR systems to account for the second largest market over the forecast period
2.3.4 Market for man portable communications systems to increase at a CAGR of 1.14% over the forecast period
2.4 Demand Drivers and Growth Stimulators
2.4.1 Global demand for lighter but advanced portable electronic systems to drive the market
2.4.2 Demand for miniature UAVs to push category sales
2.4.3 Influence of Soldier Modernization Programs
2.5 Defense Budget Spending Review
2.5.1 European capital expenditure expected to increase during the forecast period
2.5.2 Asian defense budgets expected to increase at a robust pace
2.5.3 North American defense expenditure projected to increase marginally during the forecast period
2.5.4 Modernization programs likely to drive defense expenditure in South American countries
2.5.5 Military budgets of African countries expected to increase during the forecast period
2.5.6 Defense budgets of Middle Eastern countries likely to increase during the forecast period

2.6 Defense Modernization Review
2.6.1 Debt crisis in Europe leading to postponement of modernization plans
2.6.2 Arms race in Asia reflected in modernization plans
2.6.3 North American modernization plans marginally affected by economic recession
2.6.4 Modernization programs in South America driven by replacement of obsolete armaments
2.6.5 African countries mainly spending on infantry weapons, and surveillance and monitoring equipment, to slow growing crime rate
2.6.6 Middle Eastern countries pursuing modernization of air force and air defense systems

3 Industry Trends, Recent Developments and Challenges
3.1 Technological Developments
3.1.1 Britain’s new initiative in 2013 to develop man-portable 3G communications base has been successful and might soon be replicated by other armies.
3.1.2 Solar portable UAVs
3.1.3 EARS Gunshot Localization System
3.2 Market Trends
3.2.1 Unmanned systems witnessing robust demand during the forecast period
3.2.2 Making man-portable military electronics systems lighter to be the focus of many countries
3.3 Industry Consolidation
3.3.1 Joint R&D programs expected to increase over the forecast period
3.4 Key Challenges
3.4.1 Enabling network-centric military communications for man portable systems
3.4.2 Reducing the burden of soldiers poses a key challenge for man portable electronics market

4 Appendix
4.1 Methodology
4.2 About Us
4.3 Disclaimer
