Heat Treatment of Welded Steel Structures. Woodhead Publishing Series in Welding and Other Joining Technologies

Description: An updated, revised and expanded version of Professor Burdekin's earlier work of the same title, this book explains this branch of thermal engineering in clear, practical terms. It concentrates on steels - the most predominant engineering media - and is essential reading for all those involved in the study or practice of welding high performance steel structures.

Contents:
The welding process and its effects
Types of heat treatment
Effects of heat treatment
Non-compliance in heat treatment practice and potential sources of failure
Methods of heat treatment
Guidelines for inspection of heat treatment
Manufacturing codes and standards.
